Chamber of Commerce Important, Southwest Division Manager Says

"I believe your chamber is the most important organization in your community besides your churches," J. L. Craig, manager of the southwest division of the U. S. Chamber of Commerce told the directors and members of the Canyon chamber last week.

Craig spoke at a luncheon meeting in the college cafeteria last Thursday to more than 30 chamber members and faculty of the college.

"I'm very much impressed with your town and this entire area," he said. Canyon and the Panhandle have a great prospect for growth, he said.

Craig said he once conducted a study of the economic value of Utah State College to Pocatello, Idaho, and found that the college brought in some \$3 million in new money each year.

"I imagine West Texas State does at least as well here," he said. Craig said West Texas and Utah State are about the same size and Canyon and Pocatello are comparable.

He said that the chambers of commerce are badly named. When the first groups were originally organized around the turn of the century, they emphasized industry. Then the emphasis changed to civic work.

In about 1925, the organizations were mostly called chambers of commerce and operated with a rounded program in three fields, industry, commerce and civic work, he said.

M. M. Richardson In Refugee Board

The appointment of Miss Mary Moss Richardson as local representative for the Governor's Committee for Refugee Relief Program has been announced by John H. Winters, committee chairman. Miss Richardson will act on behalf of the state committee in Randall County.

The committee was appointed by Gov. Allan Shivers at the request of President Eisenhower to inform the people of Texas on the Refugee Relief Program.

Under the Refugee Relief Act of 1953, some 214,000 displaced persons were declared admissible to this country. Recent figures show slightly over 43,000 have obtained sponsors and have migrated to the United States.

Of this number it is estimated that less than 500 have been brought to Texas.

To be successful in helping displaced persons get a new start in life, the Refugee Program will need assurances from 30,000 to 40,000 sponsors by early in 1956.

In 1933, the U. S. Chamber of Commerce was formed and the local chambers began working in the fourth field, the national scene.

The Canyon Chamber of Commerce has two basic responsibilities, Craig said. The first is to provide leadership for Canyon and the second is to act as a spokesman for business.

The local chamber should have two basic objectives, building a better community and building a better business climate, he said.

The national chamber is a federation of some 3,200 local chambers, Craig said. The national chamber works in four fields, research, policy formulation, opinion development and action getting, he said.

Craig invited chamber members to express their opinions on policies set up by the national chamber. "That's the only way we know what you want," he said.

Two Fires Stopped Without Big Loss

Two small fires in Canyon Monday were extinguished before material damage was done to keep the record of only one fire loss this year.

Mrs. George Hill of 608 20th used a cup of water and a dish towel to put out a small blaze after she had called the fire department. The wall behind her kitchen range caught fire from burning grease. Damage was negligible.

About 9 p. m. Monday, the firemen put out a blaze in an automobile in the 2200 block on Second Ave. Damage to the car was slight, firemen said.

Bette McGehee Honored at Tech

Bette McGehee of Happy has been chosen for the 1955-56 "Who's Who in American Colleges and Universities" at Texas Tech.

A senior with a grade-point average of 2.57 (3.00 is perfect), Miss McGehee is a home economics major. She has been the home economics representative to the student council, treasurer and vice president of AWS, is president of Alpha Chi and of the Women's Inter Dorm Council and was chairman of the World University Service.

She was a college beauty, the Gator Bowl Princess in 1954, and in "Who's Who" last year. She is a member of several clubs and organizations at Tech.

Mr. and Mrs. C. V. Lowe of Gruver spent the weekend in the home of Mr. and Mrs. G. B. Combs.

Highway 87 Deals Being Completed

Some 25 per cent of the right of way needed for widening the Highway 87 from Canyon to Happy has been negotiated for, Chief Youngblood of Big State Auction estimated this week.

He said appraisals for the expressway from Canyon to Amarillo will be completed within a week. When that section is appraised, the entire route from Amarillo to Happy will have been completely appraised by the firm.

Big State Auction of Amarillo was employed by the county to appraise and negotiate purchase of land needed for right of way. Youngblood estimated the entire job would be finished by the first of the year when the contract was signed early this fall.

Judges At Work In Name Contest

Processing began this morning on more than 1,000 entries in the contest to name the new housing development east of the city. Deadline was midnight Tuesday.

The developers, Taylor-Foster Development Co., expect to have a winner picked by next Wednesday. The winner will receive \$100 in cash.

The contest began Oct. 26.

Plans for the development are moving along at a fast rate, according to Hosea Foster, partner in the company. He said the contract for paving will be let soon and sewer and water pipe is expected by Dec. 1.

The development plat is being considered by the FHA at the present time.

Sisters Attend Funeral Sunday

Mrs. Oma Rowden, sister of Mrs. T. S. Stevenson Jr. and Mrs. R. A. Hodges, died Friday. Mrs. Rowden was a resident of Mansfield, Texas. Mr. and Mrs. Stevenson and Mr. and Mrs. Hodges attended the funeral Sunday.

QB Club to Feed Football Squad

The Canyon Quarterback Club will entertain the high school football players at a dinner Tuesday night in the VFW Hall.

The club fed West Texas State players a week ago.

In addition to entertaining the football teams here, the club has written letters to superintendents of schools which might get into bi-district and regional playoffs, inviting them to use the facilities here. Similar letters will be sent to coaches of the same schools.

Turkeys, Hams Shoot Prizes

Eight hams and seven turkeys, ready for the Thanksgiving oven, will be offered as prizes for best target scores at the second annual "Turkey Shoot" Friday and Saturday at West Texas State College.

Sponsored by the college Reserve Officers' Training Corps Rifle Team, the turkey shoot will be held both days from 9 a. m. until 10 p. m. in the unit's rifle range.

Rifles will be furnished, although marksmen may bring their own 22 caliber rifles. Five shots cost 50 cents.

One turkey and three hams will be reserved for women contestants. Two types of prizes will be awarded, one to the best shot, and another to a "lucky shot" winner. Each contestant will be allowed only two prizes of any type.

'All My Sons' Picked For College Play

"All My Sons," a three-act drama by Arthur Miller, has been selected by Alpha Psi Omega, national dramatics fraternity, for the first major production of the year at West Texas State College.

It will be presented Dec. 6, 7 and 8 in the Branding Iron Theatre.

Last given in 1952 by the Palo Duro Players as a Summer Theatre production, "All My Sons" will again be presented in intimate theatre style.

Jerry Williams, Canyon graduate, who appeared in the 1952 production as Chris Keller, will play the same role. He will assist Mrs. Margaret E. Moore in directing the play.

The cast will be made up of members of Alpha Psi Omega, with the exception of young Bert Keller. That role will be played by William A. Moore Jr.

Others in the cast are Johnny Lee Welton, Pampa, as Joe Keller; Patricia Starr Hall, Amarillo, as Kate Keller; Bee Chinn, Borger, as Ann; Gary Walker, Hereford, as George; Jim Perkins, Canyon, as Frank; Letha Fedrie, Stratford, as Sue; Verdi Knox, Happy, as Lydia; and Don Bauer, Tulia, as Dr. Jim Bayliss.

Bill McDonald, Canyon, will be technical director, and Paul Caillet, Carrollton, will be in charge of lighting. Buddy Knox, Happy, will be make-up artist, and Margaret Houston, Amarillo, has been named business manager.

ATTEND BUREAU MEETING

G. A. Dietz, W. T. Robinson, R. B. Gist Jr., T. J. Myers, Charles SoRelle and Alvin Friemel attended the Farm Bureau Convention in Fort Worth last week.

Super Maintainer Delivered

City Secretary Dudley Bayne inspects a new road maintainer delivered by Plains Machinery Company last Saturday. His helper is an unidentified boy who showed up to watch the unloading, and Street Superintendent Archie Davis looks over the controls of the machine in the cab. The maintainer was purchased at a cost of \$8,943. It has an enclosed cab, a heater, power steering and cushioned seats.

Clyde Warwick Is Improving

The condition of Clyde W. Warwick has improved considerably during the past week, but he will be forced to remain in the hospital for considerable time.

Warwick was taken to Neblett Hospital Nov. 2, and transferred to Northwest Texas Hospital in Amarillo Nov. 4. He underwent surgery last Thursday. Mrs. Warwick is continuing to stay in the hospital with her husband.

Edna Graham Talks At P-TA Thursday

Miss Edna Graham will be the featured speaker for the regular meeting of the Canyon P-TA at 7:45 p. m. Thursday in the Canyon High School cafeteria.

Miss Graham will speak on the subject, "The Family Sustains the School."

A high school ensemble taught by Mrs. Ada V. Clark will entertain.

Commissioners Act To Collect Taxes

If it takes court action to get them in, the Randall County Commissioners are ready to take that route to collect back taxes, both real and personal.

The commissioners Monday authorized Tax Assessor-Collector Bill Money to send notices to taxpayers who have not paid personal property taxes for 1954 and to those who have not paid real estate taxes for the past five or more years.

The notices will advise the delinquent taxpayers that the back taxes must be paid by a certain date or court action will be instituted. The final date has not been set yet.

The commissioners authorized Money to hire another deputy collector to handle the increased workload to be caused by the delinquent collection and because of the growth of the county.

Money said more than 900 new homes have been built in the county which must be appraised to keep the new appraisal system up to date.

Services Today For Mrs. Horn

Services to the memory of Mrs. Mary Elizabeth Horn were to be conducted at 3 p. m. today in the First Christian Church by the Rev. Win Matsler, pastor.

Palbearers were to be Gene Root, Marion Higdon, Walter Williams, Lee Foster, Edgar Robinson and Dan Higgins.

Burial was to be in Dreamland Cemetery under the direction of Griggs-Warren Funeral Home.

Mrs. Horn, 84, died Monday in Neblett Hospital, where she had been a patient since her return from a Dallas hospital several days ago. He had been a resident of Canyon for 24 years, and was a member of the First Christian Church.

Survivors include five daughters, Mrs. J. B. Phillips, Fort Worth; Mrs. T. H. Durham, San Angelo; Mrs. W. F. Walker, Johnson City; Mrs. Earl Pickard, Albany, and Mrs. J. T. Eldridge, Amarillo; two sons, J. D. Horn and David Horn, Canyon; a sister, Mrs. Pauline Boyd, Phillips, Miss.; two brothers, Frank Golden, Senatobia, Miss., and Johnny Golden, Phillips, Miss.; 14 grandchildren and 18 great-grandchildren.

Wolves Knock Twice at Eagles Door; Win

"We intend to play Phillips like it was any other ball team," Coach Guy Harrison said Tuesday before practice. The Eagles finish their District 1-AA schedule against Phillips Friday night in Buffalo Stadium.

The Blackhawks have a four win-one tie record in the conference, while Canyon has one win, two losses and two ties. Billed at the beginning of the season as a "point-a-minute" team, Phillips was tied by Dumas 20-20 two weeks ago and inched by Perryton by 14-0. The Blackhawks had an open date last weekend.

Canyon tied both Dumas and Perryton, by scores of 6-6 and 7-7. Hereford beat Canyon 20-13 and Dalhart beat the Eagles 13-9 last week. The Eagles beat Shamrock 26-7.

Phillips, on the other hand, beat Hereford 73-27, Shamrock 60-0 and Dalhart 62-0.

The Blackhawk line averages 175 pounds and the backfield 163.

Their heaviest linemen, tackle Norman Kendrick, weighs 212 pounds and their lightest linemen are guards Johnny Royal and Phares and center Gordon Richardson, all at 160 pounds.

In the backfield, quarterback Stan Wilder weighs in at 175, halfbacks Jimmy Gray at 158 and Jackie Webb at 160, and fullback Tommy Newman at 160.

Phillips uses principally the same offense as Canyon.

Eagle center Jack Pruett will not be able to play Phillips.

Commenting on last week's loss to Dalhart, Coach Harrison said, "Our kids played hard ball the last half, but for various reasons we weren't able to get across the goal line."

The coach said the lack of speed crippled the Eagles against the

Dalhart defense because plays had to be routed directly "into the jaws" of the defense rather than around it.

Dalhart controlled the ball more than half the plays while defeating the Eagles. During the first half, the Wolves ran 42 plays to 20 for Canyon, and they ran 22 plays to 38 for Canyon during the first half.

The Eagles had the ball only seven plays during the first quarter. However, the Wolves had time for only eight plays in the third quarter.

Canyon started like a prairie fire, making a touchdown on the third play when Harlie Adams ran 69 yards around the right end.

Dalhart's first score came at the end of a drive that started on the Canyon 46, but was moved back to the Dalhart 35 by a penalty. A two-yard run by Jay Byrd was the scoring play.

Their second touchdown came from a 25-yard gallop by Larry Womble.

Canyon's last two points, a safety, came in the closing seconds of the game when Wolf quarterback Bob Gray took the ball into his own end zone rather than risk a blocked kick or a long runback.

Canyon pushed hard against the Wolves' door five more times, but all attempts were foiled.

As the half ended, Charles Neblett completed a pass to Don Britain that put the ball on the Dalhart 18. Dalhart held in the third quarter when the Eagles rolled all the way to the Dalhart 10 before losing the ball on downs.

In the next series of downs for the Eagles, Neblett fumbled and lost the ball on the Dalhart 14. In the next series of downs for Canyon, Britain fumbled on the Dalhart 4 and lost the ball.

At the very last of the game, Canyon recovered a fumble on the Dalhart 15 and pushed to the

1, only to meet stiff Wolf resistance and lose the ball on downs.

Statisticwise, Canyon came out slightly better than Dalhart. The Eagles had 12 first downs to 10; gained 243 yards rushing to 201; tried 11 passes, completed three for 82 yards and had two intercepted to Dalhart's five attempts for two completions and 30 yards.

Neblett punted once for 28 yards, while Dalhart's Gray punted five times for a 32.6 average. Both teams lost two fumbles. Canyon was penalized seven times for 45 yards and Dalhart six for 60.

Canyon kicked off to the Dalhart five and Womble ran back 60 yards to the Canyon 35. On the first play they lost two yards, and then gained on the second. Byrd ran nine yards and Gray one, and Canyon took over on their own 26.

Adams ran to the 29, took again to the 31 and then made his 69 yard race for the first score when only 3:10 was gone in the game. Britain's extra-point try was good, making the score 7-0.

Taking the kickoff on the 10, Dalhart returned to the 25 and got set for a long string of plays. Byrd ran to the 34 and Womble to the 39. Gray made it to the 41 and Womble ran a "double-fumble" play for 11 yards—one that worked again later in the game.

Although it wasn't scheduled, Womble fumbled and dribbled the ball, gaining possession for a stride or two, then fumbled and recovered a second time before being tackled.

Gray attempted a pass and Gary Finch ran to the Canyon 39. Byrd went to the 36 and Finch ran to the 35. Byrd carried six more yards to the 29, then Gray got to the 27. Finch was able to get to the line of scrimmage on fourth down and the ball went over on

(Con't. on Back Page Section 1)

First in New Underpass

Three laborers were injured Monday afternoon when their car crashed into the new underpass on Highway 87, the first wreck there since it was opened in September.

Three Laborers Hurt in Underpass; Fourth Injured South of Canyon

Three itinerant laborers were injured when the car they were in smashed into the Highway 87 underpass Monday afternoon in the first accident in the new four-lane underpass. Another was injured early Tuesday in a second wreck.

Remaining in Neblett Hospital is Victor Cabello, 31, of Corpus Christi. Released from the hospital yesterday were Francisco Diaz Hernandez of Hart and Daniel Martinez Sifuentes of Corpus Christi.

Investigating officers said the car, driven by Sifuentes, was traveling south when it piled into the

underpass. In the second accident early Tuesday morning about 10 miles south of Canyon on Highway 87, Francisco Guerra of Lockney was injured when his car overturned. He was alone, and is hospitalized in Neblett Hospital.

The officers said Guerra was burned on his right shoulder and back apparently when he was thrown from the car and it rolled over him. They believed he was burned by the muffler.

The car rolled into a field. Guerra was driving south on the highway.

Halfback Harlie Adams, who ran 25 times for 192 yards against Dalhart, prepares to fend off Dalhart's J. Donohoo, 80, Jay Byrd, 25, and Larry Womble, 12, as Eagle Elston Burkham comes in to assist. The Wolves won 13-9 in a District 1-AA game.

EDITORIAL

Views and Comments

Comes now the ultimate, the apogee, the something or the other.

Down in Houston, the Texas Association of Home Builders is having a convention, and one of the displays is a modern home with people living in it. The home depicts today's newest innovations, and features new "at home" styles of clothing created by such designers as Christian Dior.

The designers say their new wardrobes are just the thing for the home executive (housewife) of today's air-conditioned living. Included in the collection are such home executive items as dresses with a touch of mink, cocktail frocks of brocade and matching wools and jewel-encrusted lounging pajamas.

It's hard to imagine how such an item as a mink-trimmed housedress would look at the end of a normal day, after the home executive has driven Junior to school and gone after him again, after she has taken care of Baby all day, after she has put out a full family-size washing in the automatic washer and cooked a couple of meals. The home executive would feel just like popping into a brocade cocktail dress to welcome her business executive home from work. Yeah, she would.

The *Republican News*, issued by the Republican National Committee, recently came out with the statement that when Harry Truman took office in 1945, the national debt was in excess of \$234 billion, and when he left eight years later, it was in excess of \$279 billion.

The net increase during the Truman Administration was \$33,132,564,658.71, an astronomical figure, indeed. That averages out to an increase of slightly over \$4 billion a year.

Now, in the past week or so, the present administration issued its estimated budget for the fiscal year ending June 30, 1956. The national debt at that time will be an estimated \$276 billion, an increase of just over \$9 billion since President Eisenhower took office.

Since, by then, the Republicans will have been in power for more than three years, the average yearly increase will be just over \$3 billion a year.

That means the Republicans have been able to decrease government borrowing by about a billion dollars a year, and the party believes that is something to crow about.

One of the factors they fail to point out however, is that the United States finished fighting one war under the Truman administration and also started another. Wars cost considerable public money and that could account for the difference in the annual increase of the national debt.

The *Republican News* also crows about what it calls the arresting of the downward trend in farm income. It says that when Truman left office, the farm parity ratio stood at 94 per cent.

"If the Democrat trend downward from a high of 113 per cent in February of 1951 had continued at the same monthly rate of fall, it would now be down to 68 per cent instead of 85," the *Republican* propaganda sheet says.

Says the *Republican News*, "Even the most die-hard Democrat must concede—albeit reluctantly—that happy days are here again. And there is no apparent reason to suspect that happier ones do not lie ahead."

An employee evaluation questionnaire used by a retail chain could easily be utilized by smaller businesses, and by employees themselves.

Look these questions over and see how you stack up as an employee—if you are worth your pay.

Quality of Work

1. Frequently below par. 2. Often not quite up to average of comparable employees. 3. Above average but prone to occasional errors. 4. Superior—seldom makes or repeats errors. 5. Exceptionally high quality.

Quantity of Work

1. Slow. 2. Inclined to be somewhat slow. 3. Output of required level. 4. Does more than normal share of work. 5. Exceptionally high output.

Knowledge of Work

1. Little knowledge of work. 2. Insufficient knowledge of some phases of job. 3. Reasonably adequate knowledge of job. 4. Excellent knowledge of job. 5. Exceptional knowledge of all phases of his work.

Initiative

1. Routine worker, usually waits to be told. 2. Often waits unnecessarily for directions. 3. Does regular work without waiting for directions. 4. Resourceful, alert to opportunities for improvement. 5. Seeks and sets for himself additional tasks, highly self-reliant.

Work Attitude

1. Goes about work half-heartedly. 2. Sometimes appears indifferent. 3. Normal average interest in work. 4. Shows great interest in work. 5. Exceptional interest and ambition.

Attitude Toward Others

1. Inclined to be touchy. 2. Sometimes difficult to work with. 3. About average in tact and cooperation. 4. Always genial and cooperative. 5. An unusual and strong force for good morale.

Now, how do you feel you stack up?

Have you been following the controversy over in New Mexico between the commanding general of Fort Bliss and state officials over hunting on the Fort Bliss firing range in New Mexico?

It started when Gen. P. W. Rutledge said he was going to issue 35 permits to officers who wish to hunt deer on the 400,000-acre range. State officials said they would not allow any such goings on unless the hunters bought non-resident licenses, \$50, since Fort Bliss itself is in Texas. The general said he would require that the hunters purchase resident licenses, \$5, since part of Fort Bliss is in New Mexico.

New Mexico Gov. John Simms said he might call out the National Guard to patrol the edges of the firing range looking for violators, if the hunting was allowed by the general. Sen. Dennis Chavez got into the dispute, and took it up with the Department of the Army. Secretary of the Army "requested" Gen. Rutledge hold up any hunting until he got further advice from the Pentagon. A U. S. Attorney has said he will prosecute any complaints of hunting without licenses on the firing range under federal statutes that make it illegal to violate state laws on federal land.

Gen. Rutledge claims he has sole authority for the area. Gov. Simms says the general may have authority for the area, but he doesn't have it for the deer on the area. And we say that the military has neither the legal nor the moral right to disregard the laws set up to protect the wildlife of any state. The Fort Bliss firing range belongs to the federal government, ie, the people, and not to Gen. Rutledge and his officers.

Drive Like a Professional

Driving a golf ball and driving a car have a lot in common. Both require skill, control and practice. Take the smooth swing and perfect timing necessary to make a professional golfer. They're the same for good driving.

The "pro" on the road drives his car smoothly. He blends with the flow of traffic without jerky stops and starts. Because of perfect timing he never has to dart from lane to lane. He glides his car, anticipating his next move long in advance. Through constant practice he improves his driving skill.

Army Explains

Recruiting and Training for Reserve

The Reserve Forces Act of 1955, which became effective August 9, 1955, provides several means for direct entry into the Army Reserve. The Army is currently implementing the following programs for direct entry:

1. SIX MONTHS' ACTIVE DUTY PROGRAM.

Until August 1, 1959, a qualified young man from 17 to 18½ years of age may enlist in the Army Reserve for eight years, undergo six months' training at a Regular Army post or camp at \$50 per month, and be deferred from induction so long as he satisfactorily takes part in Reserve training during the period of his enlistment.

The Department of the Army has been authorized a quota of 90,000 for enlistments of this type during the remainder of fiscal year 1955 which ends on July 1, 1956.

High school students may defer the six months' active duty for training at a Regular Army post or camp until they are graduated, cease making satisfactory grades, or become 20, whichever is first. The act does not make similar provisions for college students.

A volunteer for the six-months training program will receive training in three phases, with the initial phase of combat training to be conducted at six posts or camps.

In the first phase, which lasts

A motor rewind here has its full rated horsepower — the work is superlatively done by specialists and is wholly guaranteed. Regardless of type, size, make — we can service your electric motors perfectly, economically.

Wirt Electric

eight weeks, a volunteer will receive training at Fort Ord, Calif.; Fort Jackson, S. C.; Camp Chaffee, Ark.; Fort Knox, Ky.; Fort Leonard Wood, Mo.; or Fort Bliss, Texas.

Upon completion of basic training, he will take advanced individual and basic unit training. In the second and third phases of the programs, depending on the type of unit he joins, he will receive advanced individual and unit training at basic training camp or he will be transferred to another post or camp.

The second and third phases will be conducted as follows: Infantry at Fort Ord and Fort Jackson; Antiaircraft Artillery at Fort Bliss; Armor at Fort Knox; Engineer at Fort Leonard Wood; Signal and Military Police at Camp Gordon, Ga.; Ordnance at Aberdeen Proving Ground, Md.; Transportation at Fort Eustis, Va.; Medical at Fort Sam Houston, Texas (Brooke Army Medical Center); and Quartermaster at Fort Lee, Va.

During the six months' active duty for training, a volunteer will receive 15 days of ordinary leave.

The law requires that during the seven and one-half years a volunteer under this program has obligated himself to serve in an Army Reserve unit he will attend 48 drill periods and a 15-day summer camp each year.

An enlistee under the six months' active duty for training program is a member of the ready reserve throughout his eight-year enlistment.

A member of the ready reserve will be paid a full day's pay, in the grade in which he is serving, for each week's two-hour drill and a full day's pay for each day of his summer camp duty.

This six months' active duty for training program is ideal for high school students desiring to attend college and thereafter become established in the business world as quickly as possible.

Unless war should develop, a volunteer under this program will have completed his obligation with only a six months' interruption in his plans.

2. SIX - YEAR ENLISTMENT PROGRAM

The Army is accepting immediate enlistments for six years in the Army Reserve of men under 26 who have not yet been ordered to report for induction.

They will be required to serve two years on active duty at a Regular Army post or camp, participate with a local (ready re-

HOW TO PLAY "SQUASH"—That's what you'd learn if you played opposite Herb Diedrich, Dundee, Ill., high school's 335-pound junior-year menace. Sports goods firm which outfits him says he wears the largest football uniform ever made—a claim nearly as hefty as his 335 pounds. He wears a size 62 jersey, 56 pants, 7½ inch helmet. And all this mountainous threat to the opposition is hung on a five-foot, eight-inch frame.

serve) unit for three years, and serve one year in the standby reserve where no reserve training is required.

Unit training consists of 48 drill periods of two hours each and 15 days of summer camp duty annually.

A member of the Army Reserve who is precluded by distance, geography, or occupation from a 48-drill program may apply for 30 days' active duty for training each year.

3. SHORTENED RESERVE ENLISTMENT PROGRAM

A shortened Reserve enlistment is offered men with a reserve obligation who complete their term of active service after the date of the Act, August 9, 1955, and before July 1, 1957.

Individuals in this category can fulfill their ready reserve obligation by serving satisfactorily for one year with an Army Reserve unit.

Any remaining military obligation will be completed in the standby reserve, in which participation in reserve training is not required.

Unit training consists of 48 drill periods of two hours each and 15 days of summer camp duty annually.

A member of the Army Reserve who is precluded by distance, geography, or occupation from a 48-drill program may apply for 30 days' active duty for training each year.

4. MODIFIED ENLISTMENT PROGRAM

Enlistments in the Army Reserve are still being accepted under the Armed Forces Reserve Act of 1952 with modification as required by the Reserve Forces Act of 1955.

Men with no prior military experience and under 26 may enlist in the Army Reserve for six years without agreeing to serve on active duty.

CITATION BY PUBLICATION

THE STATE OF TEXAS
TO: ANN STRAIT, Defendant.

Greeting:
YOU ARE HEREBY COMMAND-

ED to appear before the Honorable District Court of Randall County at the Courthouse thereof in Canyon, Texas, by filing a written answer at or before 10 o'clock A.M. of the first Monday next after the expiration of forty-two days from the date of the issuance of this citation, same being the 12th day of December A.D. 1955, to Plaintiff's Petition filed in said court, on the 25th day of October A.D. 1955, in this cause, numbered 3024 on the docket of said court and styled J. R. STRAIT, Plaintiff, vs. ANN STRAIT, Defendant.

A brief statement of the nature of this suit is as follows, to-wit: A suit for divorce on the grounds of cruelty, which were of such a nature as to render their further living together insupportable, as is more fully shown by Plaintiff's Petition on file in this suit.

If this citation is not served within ninety days after the date of its issuance, it shall be returned unserved.

The officer executing this writ shall promptly serve the same according to requirements of law, and the mandates hereof, and make due return as the law directs. Issued and given under my hand and the seal of said court at Canyon, Texas, this the 25th day of October A.D. 1955.

Attest: MAVIS HILL, Clerk,
47th District Court
Randall County, Texas

(SEAL)

Winterize Farm Machinery Now

COLLEGE STATION—Farmers are advised not to put off the job of winterizing farm machinery. The first hard freeze can play havoc with auxiliary motors, tractor engines and sprayers unless they are winterized, says W. L. Ulich, extension agricultural engineer.

He says auxiliary motors should first be cleaned; the crankcase drained and refilled with new oil and the motor run for several minutes to coat all surfaces with oil. Drain the radiator and flush with a reliable radiator cleaner and then flush the cleaner out with clear water.

Remove the spark plugs. Give them a good cleaning and adjust and oil before replacing them, says Ulich. While the plugs are out, lubricate the upper cylinder walls.

Drain the fuel tank and allow to air dry. Cover the end of the exhaust and breather pipes to prevent moisture from entering the motor. Clean and charge the battery and store where it will not freeze.

To winterize the spray equipment, Ulich says flush the entire system. Remove all drain plugs and run the pump for a few minutes. Open all valves while the pump is running to release any trapped water and remove and place all valve balls in oil.

Drain the oil from the pump and flush with kerosene; then refill the pump with new oil. Grease and turn the shafts to distribute grease on shafts and bearings and hang hose so all water drains out.

On all machinery, give it a good cleaning; pack bearings to seal out moisture; remove belts and canvasses and store in a dry, rodent-proof container.

Apply a rust inhibitor to all polished surfaces such as plow moldboards and sieves. While this job is taking place, inspect the machinery and either repair or mark for repairing during the winter, broken bent or worn parts.

The present cost-price squeeze is just more reason, says Ulich, why farmers can't afford losses which can be prevented. For economy's sake winterize all farm machinery.

NONSHAGGY DOG

A man looked out the window to see his neighbor busily trying to get the dog to sit up.

"You aren't going to get any results from that animal," called the man. "That's the laziest dog I ever saw."

"Just how lazy is he?" asked the neighbor.

"Why, he's so lazy that he waits for another dog to bark and then he nods his head."

NEIN

"Give me your telephone number, Gretchen, dear."

"999."

"All right then, don't!"

Flag down the record breaker and take the wheel!

We've got these new '56 Chevrolet demonstrators cruising the streets to make it easy for you to drive the car that shattered the Pikes Peak record. When you see one, wave it to the curb—and take the wheel. You'll discover all the things that make this new Chevy a champ!

Here's the car that smashed the Pikes Peak record—proving it has the qualities that mean safer, surer driving control!

Like to drive 'er? That's easy. Just flag down one of these new Chevrolet demonstrators—and take over!

You'll feel the handling ease that took the twists out of the

winding Pikes Peak road. And you'll see what we mean by record-breaking power. These Chevrolets are powered by the new 205 h.p. "Super Turbo-Fire V8"—an extra-cost option that pours out all the action you could ever ask for!

So, give one of our new Chevys the high sign—just for fun. We'll be watching for you!

Vows Solemnized in Home Ceremony For Gloria Hunt and Dale Troxell

Nuptial vows were solemnized Friday for Gloria Ann Hunt, daughter of the Rev. and Mrs. D. L. Hunt, 1401 Sixth, and Cloyce Dale Troxell, son of Mr. and Mrs. E. F. Troxell of Lela.

An arch of greenery and chrysanthemums, backed by candelabra, formed the setting for the double-ring ceremony read by the Rev. Strauss Atkinson in the home of the bride's parents.

Soloist Joy Gray sang "Because" and "The Lord's Prayer," accompanied by Mrs. Kenneth Wilson, pianist, who also played the traditional wedding marches.

Attending her sister as maid-of-honor, Christine Hunt wore a navy fault suit with pink accessories and a corsage of pink carnations.

David Duvall was best man and candelighters were Billy Ray Troxell and Don Troxell, brothers of the bridegroom.

Given in marriage by her father, the bride was attired in a blue wool knit suit with black accessories. She carried a white Bible marked with white carnations.

Mrs. Hunt, the bride's mother, wore a gray suit with avocado accessories.

Discuss Project At WMS Meeting

Plans for a Thanksgiving project were discussed during a recent meeting of the Loughren Circle of WMS in the home of Mrs. Ed Watkins.

The Bible study was led by Mrs. Lou Fanning. The next meeting of the circle will be Dec. 6 in the home of Mrs. Gene McGlasson Jr.

Coffee and rolls were served to Mrs. W. R. Butler, Mrs. Horace Carter, Mrs. W. B. Davis, Mrs. Delbert Davis, Mrs. L. B. Lawless, Mrs. J. C. Hutto, Mrs. W. O. Nunley, Mrs. Thomas Helton, Mrs. Marvin Fite, Mrs. Crawford Kiker, Mrs. Fanning and Mrs. McGlasson.

17.2 cubic ft. Hotpoint Freezer \$299.95. Childers Electric, 1605 4th Ave., Phone OL5-2181.

The bridegroom's mother, Mrs. Troxell, wore a dress of gray taffeta. Both had corsages of white carnations.

At the reception, the bride's table was covered with a lace cloth over blue and centered with a bouquet of white chrysanthemums flanked by blue tapers. Margaret Rountree presided at the punch bowl. Mrs. Carl Dywer served the wedding cake and Cleta Sue Heasley of McLean registered the guests.

The couple is to be at home in Shamrock, where the bride will continue her studies as a senior in Shamrock High School. The bridegroom, a graduate of Shamrock High School, is employed in Shamrock.

Umbarger News

Mr. and Mrs. Bill Gerber and family spent Sunday evening in the Harold Barkley home.

Mr. and Mrs. John Vorwald and family spent Sunday in the home of Isidore Reinart.

Irene Detten was a Sunday visitor in the John Grabber home.

Mr. and Mrs. Carl Kleuskens and family, Mr. and Mrs. Charles Heymer and family were Sunday visitors in the Hoffman home.

Mr. and Mrs. Bob Brockman were hosts to Mr. and Mrs. Alvin Friemel and family.

Mr. and Mrs. Harry Broman visited in the Albert Fischbacher home Sunday.

Melvin Prizlas, who is stationed at Fort Carson, Colo., spent the weekend in the home of his parents, Mr. and Mrs. Otto Prizlas.

Exchanging visits were Phyllis Friemel with Nona Gunter; Evelyn Martin with Francis Stocker with Nona Gunter; Mary Hoffman with Elaine Stocker; and Nadine Gerber with Mary Albracht.

Buy, Build, Live in Canyon!

Covered Luncheon Fetes Bible Class

The Woman's Wesley Bible Class of the First Methodist Church served a covered dish luncheon Wednesday at the Hungates.

Entertainment was provided by a quiz on the naming of the second line of 20 familiar hymns.

Guests were Rev. and Mrs. L. L. Hill and Mrs. M. C. DeGraffenreid of Walla Walla, Wash., a house guest of Miss Mary Moss Richardson.

Members present were Mrs. Hattie Brasuel, Mrs. L. L. Gore, Mrs. J. L. Moore, Mrs. Lillie Foster, Mrs. Martha Penick, Mrs. J. A. Wiseman, Mrs. R. M. Barton, Mrs. Rosa Hungate, and Miss Richardson.

Visitors in the home of Mr. and Mrs. G. B. Combs Sunday were Mr. and Mrs. Dwayne Atkins and son, Kent.

Elizabeth Cox, Agnes Charlton and Mrs. Crannell Tolliver attended the D.A.R. luncheon at the Amarillo Country Club Friday.

Rev. and Mrs. A. B. Haynes of Ingram were in Canyon Monday night and Tuesday morning for a short visit with their son, A. B. Haynes Jr., and Elizabeth Haynes.

Mr. and Mrs. Joe Parker of Tucson, Ariz., are making their home in Canyon at 606 19th St. Mrs. Parker is a twin sister of Mrs. S. B. Louder.

Mr. and Mrs. Andy Walsh attended the high school reunion in Graham last week. Mr. Walsh graduated from Graham High School in 1911.

17.2 cubic ft. Hotpoint Freezer \$299.95. Childers Electric, 1605 4th Ave., Phone OL5-2181.

Patrolman in Muscatine, Iowa, ticketed a car three times before realizing it was his own auto. Don't laugh. Can you remember your own license number without checking your car's papers?

STYLED FOR SAFETY — Raincoat modeled by Betty Richter at Department of Agriculture's Station is of cotton fabric in which is woven a light-reflecting thread. Fabric turns wearer into a walking danger sign at night. Called "cat's eye" fabric because of its reflective quality, it is already being put to widespread use by the children's clothing industry.

Family Finance Sue Hite Study

The Family Finance Pattern was discussed by Mrs. Ermyle Cooper at the meeting of the Sue Hite Club Monday.

The invocation was given by Mrs. Clara Lou Slack. Hostesses were Mrs. Elloese Burgess and Mrs. Ada Busted.

Refreshments were served to Mrs. Hatcher Brown, Mrs. M. R. Calliham, Mrs. Levi Cole, Mrs. D. M. Foster, Mrs. Virgil Henson, Mrs. Robert Jarrett, Mrs. Mitchell Jones and Mrs. Boone McClure.

Mrs. Gene McGlasson Jr., Mrs. W. E. Miller, Mrs. Jerry Newman, Mrs. J. O. Parker, Mrs. R. F. Phillips, Mrs. Borden Price, Mrs. Hud Prichard, Mrs. Raymond Railroad, Mrs. Rex Reeves, Mrs. Crannell Tolliver, Mrs. A. L. Walsh, Mrs. R. D. Wheelock, Mrs. Lorenzo Wirt, Mrs. Cooper, Mrs. Slack, Mrs. Burgess and Mrs. Busted.

The next meeting of the club will be Nov. 28.

McClures Attend Site Dedication

Mr. and Mrs. Boone McClure were in Oklahoma City Thursday through Saturday attending the dedication of the Cowboy Hall of Fame site. Boone McClure is consultant to the building committee.

Mr. and Mrs. Curtis Lehnick and son, Jerry, and Mr. and Mrs. Ray Fullerton spent Sunday in Tulsa visiting Mr. and Mrs. Carroll Love and family.

Mr. and Mrs. Raymond Boyd and son of Pampa, and Mr. and Mrs. Dewey Curb of Amarillo spent Sunday in the J. C. Curb home.

Mr. and Mrs. La Veral Thompson spent the weekend in Wellington, Kansas, recently visiting Mrs. Thompson's parents, Mr. and Mrs. James Reams, and her brother, Lyle, who is on leave from Germany.

17.2 cubic ft. Hotpoint Freezer \$299.95. Childers Electric, 1605 4th Ave., Phone OL5-2181.

CARD OF THANKS

We take this opportunity to thank our many friends and neighbors who were so thoughtful and helpful in our time of sorrow at the loss of a dear husband and father. The many beautiful flowers and bountiful food were sincerely appreciated. We also want to thank our kind doctor and nurses. We shall never forget such dear kind friends.

Mrs. A. F. Bennett, Mrs. Frank Metcalf, Panhandle, Clyde Bennett, Panhandle, Mrs. C. W. Rogers, Liberal, Kan., and Milton Bennett, Des Moines, N. M.

I GIVE YOU TEXAS By BOYCE HOUSE

Hotels have cards in the rooms saying, "We invite your suggestions as to how we can improve our service."

I once took a hotel at its word and wrote out a mild criticism and signed my name in the space at the bottom—and I've never been able to get a room at that hotel since.

I still offer suggestions on the cards and sign them—but with somebody else's name—somebody I don't like.

One summer when I was editing the paper in Eastland, an evangelist came to town. In his sermons, he referred to conditions in the county with reference to law enforcement, or rather the lack of the aforesaid. (This was back in the early 1920's.)

This aroused a strong reply from a leader of the county government faction and the paper published his letter, which admonished the preacher to stick to the Gospel and not stir up strife. The communication closed with, "I suggest he preach on my favorite text, 'Suffer little children to come unto Me and forbid them not, for of such is the kingdom of heaven!'"

That night, in the pulpit, the evangelist replied—and we published his answer, also. He said, "I understand that the man who wrote the letter has been married a good while and has no children. I recommend to him another verse of the Scripture, Increase, multiply and replenish the earth."

I want to go on record (for whatever it is worth) against the use of fine, standard old songs as commercials. A while back the tune which is associated with the heroic migrations into the old West, "I come from Alabama with a banjo on my knee" was used with a verse boosting some kind of mange remedy or flea powder.

A young man and a pretty young lady were driving around the city one night. She asked, "Would you like to see where I was vaccinated?" He replied, "I surely would." She said, "In that building on the corner."

Then there was the cub reporter who turned in a writeup which said, "The man was shot between the stove and the kitchen sink." That is a bad spot to get shot.

Dr. Hugo Theorell, a leading Swedish biochemist, was awarded the 1955 Nobel prize in medicine for discoveries dealing with the nature and action of oxidation enzymes.

Can't Get Rid of Your Cold?

Then try 666, the wide-activity medicine, for greatest effectiveness against all symptoms of all kinds of colds. 666 combines 4 potent, widely-prescribed drugs and gives positive dramatic results in a matter of hours. Its combined therapy covers the complete range of all cold symptoms.

No other cold remedy can match 666 liquid or 666 Cold Tablets.

LEE FOSTER

Collector Canyon Independent School District
Office in the Court House

TO EACH HIS OWN—Students approach unique on-campus religious facilities of Brandeis University, Waltham, Mass. The three modernistic structures house chapels for each of the major faiths represented among student enrollment. Believed to be the only such installation in the United States, it includes, from left: Berlin Chapel; (Jewish); John Marshall Harlan Chapel (Protestant); Bethlehem Chapel (Roman Catholic).

Bob Wear Speaks At Lions Club

Bob Wear, minister of the Central Church of Christ, told the Lions Club last week that citizens may be classified into two categories, those who build and those who destroy.

"We have a responsibility to do what we can for our community," Wear said. "We must contribute to the wellbeing of it."

"Building is a slow process that takes planning and intelligence. Nearly anyone can tear down, but it requires a good man, a real man, to build up," he said.

Bill Griffin was introduced as a new member of the club.

Visitors were Jim Cabe and W. Teague, of Amarillo, and Bob Black, Borger.

TACT

"What is the tactful way for a girl's father to let her boy friend know it's time to leave?"

"He may casually pass through the room with a box of breakfast food."

The Lonardi provisional government in Argentina recently disclosed it would ratify the 1948 Bogota Inter-American Charter "very soon" in a move to restore hemispheric ties.

CONTRACTORS' NOTICE OF TEXAS HIGHWAY CONSTRUCTION

Sealed proposals for constructing 1.295 miles of Storm Sewer from 16th and South Fillmore St. in Amarillo; and from 34th and South Tyler in Amarillo to a point of discharge, 0.8 mi. southeast of Amarillo on Highway No. US 60 & 87, covered by U 60 (7), in Randall and Potter Counties, will be received at the Highway Department, Austin, until 9:00 A.M., Nov. 22, 1955, and then publicly opened and read.

This is a "Public Works" Project, as defined in House Bill No. 54 of the 43rd Legislature of the State of Texas and House Bill No. 115 of the 44th Legislature of the State of Texas, and as such is subject to the provisions of said House Bills. No provisions herein are intended to be in conflict with the provisions of said Acts.

In accordance with the provisions of said House Bills, the State Highway Commission has ascertained and set forth in the proposal the wage rates, for each craft or type of workman or mechanic needed to execute the work on above named project, now prevailing in the locality in which the work is to be performed, and the Contractor shall pay not less than these wage rates as shown in the proposal for each craft or type of laborer, workman or mechanic employed on this project.

Legal holiday work shall be paid for at the regular governing rates. Plans and specifications available at the office of Byron Reese, Resident Engineer Amarillo, Texas, and Texas Highway Department, Austin. Usual rights reserved.

Americans Using More Dairy Foods

COLLEGE STATION—Americans are drinking more milk and eating larger quantities of other dairy products reports the Agricultural marketing service of the U. S. Department of Agriculture.

In 1953 each person used the equivalent of only 688 pounds of milk, the smallest quantity since 1924 when figures first became available. But the 1954 figures are good news for dairy producers.

Consumption per person rose to average about 700 pounds. And still better, indications are the 1955 average consumption figure will be slightly higher.

The upturn in the consumption of milk, says the Agricultural Marketing service, resulted from several factors. Retail prices went down slightly when supports were reduced in April, 1954.

Consumer incomes moved upward in the last quarter of 1954, making it possible for many families to afford more dairy foods. Increased consumption was also aided by government disposal programs and by the industry's promotional campaign.

Advertisers stressed the fact that people of all ages need milk to keep healthy.

And the installation of vending machines in offices, public buildings and other locations made it easier for workers, travelers and others to buy sweet milk, butter-milk and flavored milk drinks.

UNEXCITABLE

Grandpappy Morgan, a hillbilly of the Ozarks, had wandered off into the woods and failed to return for supper. So young Tolliver was sent to look for him. He found him standing in the bushes.

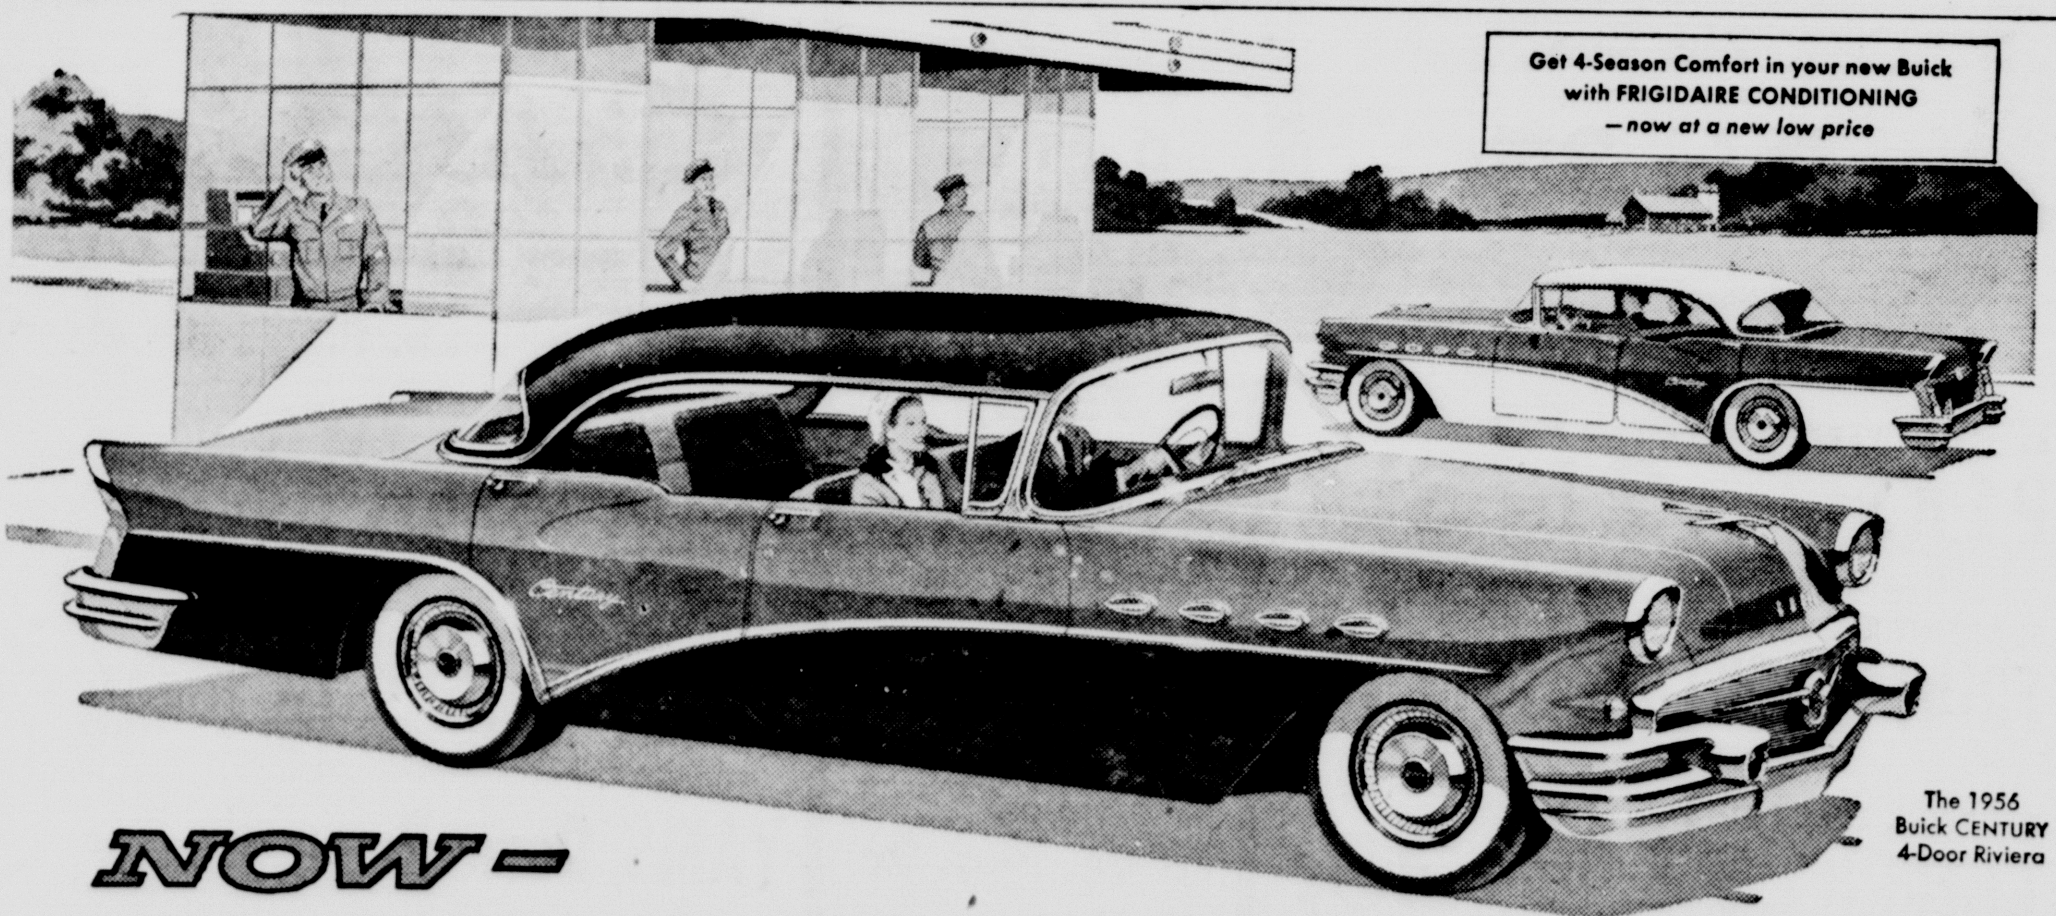

"Gettin' dark, Grandpap," the tot ventured.

"Yep."
"Supper time, Grandpa."
"Well, are you comin' home?"
"Nope."
"Well, why ain't you?"
"Standin' in a bar trap."

Consumer loan interest rise is expected next month.

NOW -

Just touch the pedal and away you go!

(That's the New Variable Pitch Dynaflow*!)

OF COURSE, you can floor the pedal of this stunning new '56 Buick and get the full-power sweep of its advanced new Variable Pitch Dynaflow.

That's how you switch the pitch of this airplane-principled transmission for instant safety-surge acceleration to get out of a tight spot on the highway.

But now you get a brilliant new response at the start of pedal travel, too.

Now you get a solid take-hold for instant take-off in the first inch of pedal action—where most of your normal driving is handled. And you get

this great new getaway with a big boost in gas mileage, too.

So there you are, just nudging the pedal, and getting action that makes you feel like you've floored it.

There you are, handling all your normal driving situations with a confident toe-touch—with new surety and snap—and with the happy satisfaction that comes with a sizable step-up in the miles you get from a tankful of gas.

And there you are, rolling along with beaming pride as boss man of the best Buick yet.

For here you have, beating any past Buick, the

greatest power yet—the boldest styling yet—the sweetest ride yet—the smartest interior yet—and, by far, the best buy yet.

Drop in on us this week—tomorrow, if you can—and see for yourself that there's never before been anything like this Buick beauty for 1956.

*New Advanced Variable Pitch Dynaflow is the only Dynaflow Buick builds today. It is standard on Roadmaster, Super and Century—optional at modest extra cost on the Special.

It's the '56 Buick—

Best Buick yet

BE CAREFUL, BOYS
Flip—Where's Sam?
Flop—He's got painter's colic.
Flip—But he's no painter.
Flop—His girl is, though.

It happens every fall. We wake up some crisp morning and look out the window to see if there has been a frost. Maybe so and maybe not. But one thing is sure: the robins will be there.

At the first hint of chill, they move in. Their chestnut red breasts and slate black wings glisten in the morning sun as they hop fearlessly near the bedroom window. They cock their heads wisely at each sound, and in loud, cheery bursts sing a few notes.

For a number of years they've visited us — on their way from Somewhere to Somewhere. We've often wondered about those two faraway places, but not being real bird lovers have never found out.

Naturally, we thought, the beauty of our yard attracts them. But this year we know better. It's the berries next door. They pitch camp near a good food supply, and at mealtime fly over and denude a few branches of the bright orange pyracanthus bush. Then they fly over here to digest — or to snap up a few choice insects for dessert. When the neighbor's berries are stripped, they'll leave.

Curious, we tried to learn some of their secrets. But a little knowledge has only taken away from the pleasure of their visit. Our robins, the encyclopedia tells us, aren't really robins — they're thrushes. The true "redbreast" is an English bird who migrates across the Channel to the Continent. In America, the name is applied to the migratory thrush who "breeds north to Alaska, wintering from the northern United States, southward." The western robin is found "from the eastern base of the Rocky Mountains to the Pacific."

So now where are we? Our robins who aren't robins, are they thrushes — or western robins (who are really thrushes, too)? Evidently the best bird secrets aren't found in books.

Profits of industrial manufacturers set new peak.

Travel Complicates Disease Controlling

COLLEGE STATION—Travel so fast that it outruns the normal incubation period of nearly all animal diseases presents a special problem in disease control, reports the U. S. Department of Agriculture.

Last year, for the first time in U. S. history, overseas exports of cattle were greater by air than by ocean vessel, according to the USDA. Also, more than 90 per cent of our imported poultry came by air and about 75 per cent of our imported horses.

Imports and vehicles must be checked carefully both before and after shipment to insure that they bring us no foreign diseases.

In many cases insect or other possible carriers are already present, and only the disease agent itself is needed to cause an outbreak with which we have had no experience.

The quarantine and inspection activities of USDA guard against such an emergency.

Plans to replace New York City's obsolete Times Square-Grand Central Terminal shuttle subway cars with a rubber belt transportation system have been abandoned, at least for the present. City Fathers feel they can't afford the modernization program.

CONTRACTORS' NOTICE OF TEXAS HIGHWAY CONSTRUCTION

Sealed proposals for constructing 15,990 miles of Gr., Strs., Base & Surf. from FM 1541, 5.0 mi. South of Amarillo to end FM 1151, 5.0 mi. South of Washburn on Highway No. FM 1151, covered by S 2008 (1), in Randall and Armstrong Counties, will be received at the Highway Department, Austin, until 9:00 A.M., Nov. 23, 1955, and then publicly opened and read.

This is a "Public Works" Project, as defined in House Bill No. 54 of the 43rd Legislature of the State of Texas and House Bill No. 115 of the 44th Legislature of the State of Texas, and as such is subject to the provisions of said House Bills. No provisions herein are intended to be in conflict with the provisions of said Acts.

In accordance with the provisions of said House Bills, the State Highway Commission has ascertained and set forth in the proposal the wage rates, for each craft or type of workman or mechanic needed to execute the work on above named project, now prevailing in the locality in which the work is to be performed, and the Contractor shall pay not less than these wage rates as shown in the proposal for each craft or type of laborer, workman or mechanic employed on this project.

Legal holiday work shall be paid for at the regular governing rates. Plans and specifications available at the office of W. V. York, Resident Engineer Canyon, Texas, and Texas Highway Department, Austin. Usual rights reserved.

Pork Cooking Hints Given

COLLEGE STATION—This seems to be the time of year when homemakers can make good buys in pork.

However, some homemakers "shy" away from this nutritious meat because they have heard of the dread disease, trichinosis, caused by underdone pork.

They ask, "How can I tell when fresh pork is roasted all the way through?"

If you do not have a thermometer, make small trial cuts next to the bone. Extension foods and nutrition specialists say fresh pork adequately cooked loses its pink color and is grayish white.

If you have a meat thermometer, insert the bulb to the center of the thickest part of the meat. Do not let it touch the bone or fat. Cook the fresh pork until the temperature is 185 degrees F.

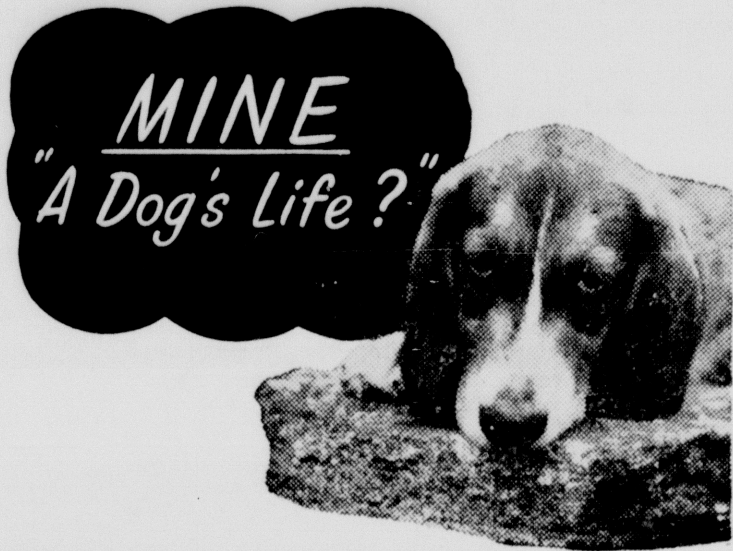

Specialists say broiling is not advised for fresh pork. It is safe for cured, smoked cuts, such as bacon, ham and Canadian bacon.

Homemakers ask, "Can I be sure that 'ready-to-eat' sausages are safe to eat without cooking?"

If they are marked with the round purple U. S. inspection stamp they are safe. "Ready-to-eat" sausages prepared under Federal meat inspection are put through processes adequate to kill any trichinae that may be present.

Get Summer STARTS

Change to SHAMROCK'S NEW MOTOR OILS

No matter how low the temperature drops, you'll get quick summer starts all winter with Shamrock 5W-20 or Shamrock 10W-30. They are new multi-viscosity motor oils that flow freely even in coldest weather. At temperatures well below zero, you get the snappy engine turnover you expect only in summer. Yet at high operating temperatures, you get the engine protection of a heavy weight motor oil. This flexibility pays off in greater engine performance in both winter and summer... it makes Shamrock 5W-20 and Shamrock 10W-30 the ideal motor oils for year-round use. Ask for Shamrock 5W-20 or 10W-30 motor oil today. They're at the Shamrock station in your neighborhood.

Births

Rev. and Mrs. Luther Paul McClung, of Dawn, are the parents of a boy born Nov. 12.
Rev. and Mrs. H. H. Smith of Wildorado are the parents of a boy born Nov. 13.

It's a boy for Mr. and Mrs. James McCormick, born Nov. 14.
Mr. and Mrs. Alfred Bednorz are also the parents of a boy born Nov. 15.

A daughter and son-in-law, Mr. and Mrs. Lee Chandler of Borger, visited Sunday with Mr. and Mrs. W. H. McAtee.

Dwight Davis Feted On Second Birthday

Dwight Davis was honored on his second birthday with a party given by his mother at his home, 1106 7th Ave., on Nov. 8.

Refreshments were a birthday cake in a western motif, angel pudding and hot chocolate. Candy suckers and funny hats were used for favors.

Friends attending were Macky Bosley, Kim, Kris, and Tommy Tucker, Ruchia and Debbie Martin, Marvin and Lee Griffin, James Larry Hand, David and Robbie Carter, Susie Parsons, Theresa and Bubbie Griffin, Ben Peckenpaugh and Jimmy and Johnny Rusk.

Mothers present were Mrs. Max Bosley, Mrs. Tommy Tucker, Mrs. Harold Martin, Mrs. Ray Griffin, Mrs. Fay Hand, Mrs. Horace Carter, Mrs. Wayne Griffin and Mrs. Toney Rusk.

Stork Specials

Mr. and Mrs. Roger L. Hedrick are the parents of a girl born at Cushing, Okla., Nov. 3.

It's a boy for Mr. and Mrs. Mack Rogers of Sterling, Colo. Born Nov. 8, Richard Lindal weighed 8 lbs. Grandparents are Mr. and Mrs. C. G. Sharp of Amarillo and Mrs. R. L. Rogers of Canyon.

Mrs. Dick McDonald Is Honored With Introduction Tea Saturday

On Saturday, a tea was given in the Bryan McDonald home honoring Mrs. Dick McDonald, daughter of Mr. and Mrs. Stanley Denny of Kirtland, England, who recently arrived in Canyon with her husband who has been stationed with the U. S. Air Force in Woodridge, England.

Hostesses were Mrs. Charles McDonald of Midland, Mrs. J. B. Thompson Jr. of Lovington, N. M., and Mrs. Bryan McDonald.

Mrs. Bryan McDonald, mother-in-law of Mrs. Dick McDonald, introduced the honoree to the guests. Mrs. Charles McDonald invited the guests to add to the

Thanksgiving Time Observed by Club

Thanksgiving and the pre-Christmas season set the mood for the Palo Duro Club meeting Thursday in the home of Mrs. P. L. Pitt.

Thanksgiving poems were read by Mrs. John Jennings and Mrs. Earl Burtz. Roll call was answered with "What I am thankful for."

Entertainment was also provided by a game of "I've got a secret." Members got an early start on the Christmas season with the making of plans for a Christmas party which is to be Dec. 8 in the home of Mrs. Hugh Kelso. Mrs. George Barker is to be co-hostess and each member is requested to bring a guest.

Refreshments of pumpkin pie ala mode, nuts and coffee were served to Mrs. Mae Johnson, Mrs. P. L. Pitt, Mrs. Hugh Kelso, Mrs. L. Sheets, Mrs. Earl Burtz, Mrs. Ed Money, Mrs. George Barker and a guest, Mrs. Leonard Winters.

Fellowship Group Hears Mrs. Hulsey

Mrs. Lynn Hulsey presented the program for the meeting Nov. 8 of group 4 of the Christian Women's Fellowship. Her topic was "A Home Away From Home."

Mrs. Orvil Brummett was hostess. Mrs. Clyde Ivy gave the devotional. Refreshments were served to eight members.

"friendship" candle. Also receiving formal introductions was Melvina Marie, infant daughter of Mr. and Mrs. Dick McDonald.

The refreshment table was laid with a dark green linen cloth. Centered on the table were large gold mums arranged in a gold gilt crown decorated with pearls and jewels. Representing the joining of two countries were the British and American flags. The joining of two hearts was represented by gold interlocking hearts placed in the center of the gold gilt mums.

Mary Gail McDonald greeted the guests. Furnishing music were Mrs. Robert Lee Foster and Mrs. Glenn Dowlen. Mrs. Clay Cooper and Mrs. A. K. Knott poured spiced mint tea to about 160 guests.

In the house party were Mary Gail McDonald, Mrs. Clay Ridgway, and Mrs. W. S. Kerr of Hereford, Mrs. Aubrey Crossland, Mrs. I. F. SoRelle, Mrs. T. H. Knighton, Mrs. M. B. Measamer, Mrs. Robert Lee Foster, Mrs. Glenn Dowlen, Miss Elva Fronabarger, Miss Darthula Walker, Mrs. L. H. Owens, Pat Hubbard, Mrs. Clay Cooper and Mrs. A. K. Knott.

Out of town guests were Mrs. Charles E. Davidson Jr. and Mrs. Frank McMullan of Ozona.

Canyon Girl Hurt in Wreck

Nelda Coffee, 16, of Canyon, was injured in an automobile accident Sunday afternoon about a half-mile south of Western Avenue on the Amarillo highway.

Her companion, Gene McCart III, 14, of Amarillo, was also injured. Neither were believed seriously hurt.

Officers who investigated the accident said McCart was driving south. Al Odegaard, 25, of Clovis, said he was also going south and was passing McCart when McCart pulled out to go around a truck.

Odegaard's car struck the McCart vehicle, flipping it sideways and causing it to skid off the pavement. The car ran into a tree stump, and stopped atop it.

Advertisement

New Frigidaires Unveiled Today

Glamorous 1956 Frigidaire appliances — featuring refrigerators with a unique new ice service and ranges with revolutionary smokeless fume-free ovens — were announced today by Frigidaire Division of General Motors.

Mason M. Roberts, GM vice president and head of Frigidaire, said that many new convenience features, exciting high-fashion styling and five exterior colors are highlighted in the pace-setting appliances. Smart new removable Decorator Panels are featured in refrigerators, ranges and food freezers.

The new appliances were unveiled publicly in thousands of stores across the country this morning.

Roberts said that engineering design advancements incorporated into the 1956 Frigidaire household appliances will give the homemaker a greater "lift for living."

FEATURES

The intriguing new ice service freezes three pounds of ice cubes at a time, delivers them instantaneously with little effort, and then stores up to five pounds of the sparkling, ready-to-use cubes. The secret is in new Ice Ejector trays made of fashionable pink aluminum. Slide a tray into a built-in device and ice cubes are automatically ejected, dropping into a transparent serving bin below. In storage, the cubes will not melt or stick together but stay separate because of the "zero-zone" temperature.

Smoke and fumes caused by broiling and other types of oven cooking will soon do a disappearing act in the kitchen — thanks to a new Miracle Filter in top model electric ranges. Key to the system is a special, compact catalytic device concealed in the oven vent. It operates automatically when the oven is turned on. The homemaker can even broil meat with the oven door closed. Smoke and fumes are dissipated before oven air is discharged into the kitchen.

Many other impressive features are included in Frigidaire household products for 1956:

For the first time in history, range ovens are equipped with shelves, which instead of sliding, actually toll out on heat-tempered ball bearings.

An unusual 30-inch range has French doors for maximum convenience.

A shelf rolls out automatically when twin oven doors are opened. Large capacity electric rotisseries that turn on and off automatically have been designed for conventional and built-in ovens.

Automatic washers have two-in-one flexibility because a simple dial control makes it possible to wash, rinse and spin-dry small loads of clothes or miracle fabrics in one-third less time, with one-third less soap and water than required in the normal cycle for full loads.

Some specialized laundry tasks can be accomplished by one of the new washers in as little as 12 minutes, with the care of hand laundering.

In dryers, temperature can be controlled to fit the fabrics, and one dryer does not require expensive outside venting or plumbing.

Appliances are available in new exterior colors for 1956. Warm Mayfair pink and smart Sheffield gray have been added to the popular Stratford yellow and Sherwood green for refrigerators, ranges, washers, dryers and food freezers.

Eagles - -

(Continued from Page 1)

Neblett ran four yards to the 31. Britain made three more and Adams could only get to the line of scrimmage. Neblett kicked out of bounds on the Dalhart 38.

Womble made 16 yards to the Canyon 46, but a penalty put the ball back on the Dalhart 36. Gray went to the 47, then to the 49. Finch was set back six yards to the 43 and Gray hit Womble with a pass for seven yards to the 50 as the first quarter ended.

Continuing the march, Gray hit Womble again to the Canyon 22. Byrd ran three straight plays to the 9, then Gray carried once to the 5. Byrd took over again and went to the 2 and then over the goal line. Larry Lilley's extra point was good to tie the score 7-7.

Dalhart kicked to the 14 and Adams ran back to the 34. A penalty on the first play put it back on the 29. Neblett tried two passes, then gave the ball to Adams, who ran it to the 32.

Neblett tried to kick out of the hole, but a bad pass from center defeated the attempt. He ran with the ball with the Dalhart line chasing him and made it back to the 30 before being tackled.

Byrd made four yards, then the Wolves hit a closed door. Finch lost five yards and Gray seven, so Dalhart was forced to punt. Gray's kick went into the end zone.

Taking over on the 20, Adams made six yards and Britain five to the 31 for the first down. A penalty then put the ball on the 26. A second penalty put the ball back on the 14. Neblett tried two passes, then connected with Adams on the 40. Britain could only make it to the scrimmage line and the ball went over on downs.

Gray ran three yards then six to the 31. Byrd went to the 28. Finch punched to the 26 and Gray made one more yard.

Womble made his 25-yard run to the goal line for the second score with only 1:22 left to play in the second quarter. Lilley's point try was not good, to make the score 13-7 for Dalhart.

The Wolves tried a foxy on sides kick and recovered it on the Canyon 29. Womble went to the 25. Gray attempted a pass, Byrd lost one yard and Gray attempted another pass.

With only 22 seconds left in the half, Canyon took over and Neblett connected with Britain for two passes that moved the ball from the Canyon 26 to the Dalhart 18, but time ran out.

Canyon kicked off again to start the second half, and Byrd ran back to the 45. Three plays and a penalty later, the ball was on the 47 and Gray kicked to the Canyon 15.

Neblett snagged the ball on the 15 and ran back to the 40. Adams made seven yards and Britain made two to the 49.

Adams crossed the center stripe to the Dalhart 47 for a first down. A penalty on the next play put the ball on the Canyon 48. Neblett threw a long pass downfield, which was intercepted by Dalhart's Ronnie Hammett on the Dalhart 29. He ran back to the 35.

Finch fumbled after making yardage to the 40 and Canyon recovered.

Adams ran to the 37, Britain to the 33 and then lost one. Adams went to the 30 for a first down, to the 23 and Britain ran to the 20. Adams ran to the 17 for another first down.

Neblett lost one yard then attempted a pass. Britain lost two yards and Neblett ran 10 to the 10, but Canyon lost the ball on downs.

Womble lost one yard, Byrd made four and then 20. Gray kicked to the Dalhart 30.

Neblett reared back and threw to Don Britain in the end zone, but missed. Adams carried to the 21, but a penalty on the next play put it back on the 26. Adams carried again to the 23 and Britain made a first down on the 19 as the third quarter ended.

On the first play after the quarter, Neblett fumbled on the 14 and lost the ball.

Womble took off and ran 18 yards. He tried again but made only two. Byrd carried to the

37 and then to the 40, but Gray was forced to kick.

Adams took the kick on the Canyon 15 and ran to the 23. He carried on the first play to the 28. Britain carried to the 32 and Adams began a string of first down plays.

He carried to the 36 for the first first down. Next he went to the 48. Crossing the 50-yard line, Adams scooted to the Dalhart 35. He carried to the 28, then Britain made five to the 23 for another first down.

Adams made it to the 14 and Britain to the 10 for another first down. Adams went to the 5, and Britain stepped to the 4, but fumbled and lost the ball.

Gray carried to the 5, Byrd to the 10 and to the 12, but Gray kicked to the Canyon 49. Adams ran back to the Dalhart 46.

Neblett threw a long pass, but the Dalhart secondary intercepted on the 14. A penalty on Dalhart set the ball back to the 3, then a penalty against Canyon pulled it back to the 8. Byrd began a run, but fumbled and lost the ball on the 15.

Adams made seven yards to the 8, a penalty against Dalhart put it on the 3 with four downs to go. Adams made one yard to the 2, then another to the 1. Neblett attempted a quarterback sneak that ended inches from the goal line.

On the last down, Neblett attempted a sweep around right end, but was tackled on the 3 and the ball went over.

Gray made two yards, then two more and again two more to the 8. A penalty put the ball back on the 3, so Gray took the ball back into the end zone on fourth down for the Canyon safety, that made the score 13-9 with less than a minute to play.

With only 10 men on the field, Canyon took the Dalhart free kick from the 20 and ran to midfield. Neblett made five yards as the gun sounded to end the game.

During the game, Neblett carried eight times for a net 19 yards, Britain 13 for 32 yards and Adams 25 for 192 yards.

During last week's District 1-AA games Phillips downed Shamrock 60-0; Dumas beat Perryton 26-18 and Dalhart defeated Canyon 13-9.

The standings are:

Team	Won	Lost	Tied	Pct.
Phillips	4	0	1	.900
Dumas*	3	1	2	.666
Canyon	1	2	2	.400
Perryton	1	2	2	.400
Hereford	2	3	0	.400
Dalhart	1	3	1	.300
Shamrock	1	4	0	.200

*Dumas has completed district play.

Games scheduled this week, in addition to the Canyon-Phillips

battle here, are Perryton and Shamrock and Dalhart and Hereford.

Club Hears Book Review by Angel

A book review of Dr. D. V. Borgan's book, *The American Character*, was given by Irene Angel at the Woman's Book Club meeting Nov. 9.

She emphasized the chapter on Unity and Liberty, and the chapter on *The American Way of War* discussing the views of Dr. Borgan that the American way of life and the American way of war closely parallel.

Dr. Borgan traveled and studied in 40 states in this country and is recognized today as one of England's leading authorities on the culture and history of the American people.

Because of family illness Mrs. Clyde Warwick was unable to give

her part of the program and Edna Graham, Mrs. S. B. Loudder, and Darthula Walker substituted extemporaneously.

Edna Graham told of Norway's appreciation for the American "Four point Aid Plan" which enabled Norway to rebuild fishing villages totally destroyed by German bombing. Attitudes of the people of Holland and of Europe toward American aid was mentioned by Mrs. Loudder, and Darthula Walker told of the interest of the German people in America's maintenance of both militarism and democracy.

In the business meeting Mrs. T. S. Maxwell was elected to membership. It was announced that the club will meet Nov. 16.

Members present were Irene Angel, Edna Graham, Darthula Walker, Mrs. Ray Campbell, Mrs. A. A. Clark, Mrs. S. G. Condon, Mrs. L. A. Donnell, Mrs. John Davis, Mrs. Lon Fanning, Mrs. K. E. Frieze, Mrs. Joe A. Gibson, Mrs. Walter Graham.

Mrs. Charles Harter, Mrs. Lee Johnson, Mrs. J. W. Kleinschmidt, Mrs. T. H. Knighton, Mrs. S. B. Loudder, Mrs. T. B. McCarter, Mrs. Frank Morgan, Mrs. R. A. Neblett, Mrs. Irving SoRelle and Mrs. Fred Standley.

Mrs. Crews Henry On P-TA Program

Mrs. Crews Henry will be one of nine state vice presidents who will assist Mrs. Leon S. Price of Dallas, state president, during the 47th annual convention of the Texas Congress of Parents and Teachers which began this morning in Fort Worth.

Main speakers for the convention will be Mrs. T. J. Mims, Greenville, S. C., national vice president for Region III; Dr. Finis Engleman, Hartford, Conn., state commissioner of education and vice-chairman of the committee for White House Conference on Education; and Dr. Andrew Holt, vice president of the University of Tennessee.

Elaine Cundiff Made TU Spooks Chairman

Virginia Elaine Cundiff, University of Texas student from Canyon, is the new contact chairman of Spooks, campus service organization.

Miss Cundiff, junior home economics student, is the daughter of Dr. and Mrs. E. J. Cundiff, 507 25th. She is a member of Alpha Phi social sorority, and is adviser in Blanton dormitory.

Farm Bureau Board To Meet Thursday

Reports from the state Farm Bureau convention will be given at a meeting of the Randall County Farm Bureau board of directors at 8 p. m. Thursday in the bureau office here.

A discussion of the resolutions passed by the convention will be held.

Anyone interested in farm legislation is invited to attend the directors meeting.

Negro teachers face loss of jobs in integration.

Inventor

WAYNE KELSO

Fueling Device Wins Kelso Cash

The Air Force recently presented a cash award to Wayne Kelso of Canyon for a refueling device that he invented and perfected during his recent service tour.

The device cuts refueling time from 20 minutes to three minutes on F-80, F-94 and T-33 type jet planes.

Kelso was discharged Oct. 21, and has returned to Canyon and opened a welding and machine shop on the Hereford highway.

Fairview Breezes

The Rev. Earl Landtroop preached Sunday morning and evening.

Nan Early Shipman had friends visiting her from Happy Saturday night and Sunday.

Mrs. Frank Rogers was ill with a severe cold Sunday.

Mr. and Mrs. T. J. Myers, having finished a new home west of Canyon, were honored with a housewarming Saturday evening. Those attending were Mr. and Mrs. Melvin Schaeffer and children, Milton and Sherrell Ann, Mr. and Mrs. E. W. Schaeffer, Mr. and Mrs. H. H. Shipman and Gene, Mr. and Mrs. E. M. Wilson and Darrell, Mr. and Mrs. G. E. Wesley and Lavena Amerson, Mr. and Mrs. J. W. Wesley, Mr. and Mrs. Charles Sutton, Mr. and Mrs. John Perry Mitchell, Mr. and Mrs. Richard Evans, Mr. and Mrs. Harvey and Mrs. Wheatley. The host and hostess received a number of lovely and useful gifts. The HD Club ladies furnished refreshments consisting of Hi-Ho sandwiches, cookies and punch. Games of "42" were enjoyed by the group.

Raford Shipman is under the care of a doctor.

Those enjoying "88" in the G. E. Wesley home Thursday evening were Mr. and Mrs. Frank Rogers and Mr. and Mrs. J. W. Wesley.

Visitors in the Serena Bryan home Friday evening were Mr. and Mrs. Richard Evans, Mr. and Mrs. Frank Rogers, Mr. and Mrs. G. E. Wesley and Lavena Amerson.

Mrs. Woodrow Wesley and son, Bowie, were shopping in Amarillo Saturday.

Mr. and Mrs. Oscar Read and James are visiting their daughter and son-in-law in Fort Worth.

We were glad to welcome La Quita Patterson and two girls from Happy at church Sunday.

We are sorry to hear of the former Mary Alice Brazils' husband having the misfortune of getting a leg broken some three months ago and is still unable to be around. They have moved back to her father's, Finis Brazils, in Happy. They were living in Amarillo.

Visitors in the J. W. Wesley home Sunday were Mr. and Mrs. G. E. Wesley and Lavena Amerson and Brother Landtroop.

The Fairview club will meet Friday afternoon with Grace Schaeffer.

Junior High FHA Formed Recently

A Future Homemakers of America Chapter for the junior high school students was organized Nov. 10.

Margaret Johnson was elected president. Other officers elected are: Marcia Barker, vice president; Billie Miller, secretary; Karen Parker, treasurer; Linda Green, reporter; Judy Parsons, historian; Peggy Darst, song leader; Mary Rad McKay, pianist; and Helen Guthrie, sergeant-at-arms.

Other members of the chapter are Arlene Boehning, Nikkie Cabe, Dorothy Hernandez, Treve Jordan, Korene Kiser, Nelda Pettitt, Gayle Rogers, Patricia Simon, Suzanne Sims, Shelah Stephens is the sponsor.

4-H Training School To Begin Thursday

A recreation specialist from the extension service at Texas A&M will conduct a three-meeting training school for 4-H Club members and leaders in Randall County beginning Thursday night.

Lucille Moore, the extension specialist, will give training to benefit the 4-H program, schools, church and community.

An estimated 50 4-H'ers from Randall County plus a delegation from Deaf Smith County is expected for the school. The first session will be Thursday night in the American Legion Hall here.

Sessions will also be held Friday night and Saturday morning in the Farm Bureau auditorium in Canyon.

"The county is fortunate to have this school," County Agent John Brazzil said. "I think we will get real benefit from the work."

He said only a few counties in the state can have the training schools during the year.

J. L. Dufлот Weds in Houston

Miss Agnes Warinner of Houston and Joseph L. Dufлот, formerly of Canyon, were married at 10:30 a. m. Saturday at the First Christian Church in Houston by the Rev. Richard M. Spangler in the presence of a few relatives and friends.

Mrs. Dufлот did her graduate work at West Texas State and is a teacher in the Houston Public School system. She is a sister of Mrs. Dee Huneke and Mrs. Myron Dorman of Amarillo.

Dufлот is a retired professor of sociology and philosophy at West Texas State. He moved to Houston from Canyon last summer.

Relatives attending the wedding were Mrs. Dufлот's sister, Miss Jean Warriner of Ardmore, Okla.; Dufлот's son, Dr. Leo S. M. Dufлот and his wife and family of Galveston; his brother, George S. Dufлот, his niece, Mrs. L. M. Dufлот and her husband of Houston.

The couple will live at 2357 Bolsover, Houston.

172 cubic ft. Hotpoint Freezer \$299.95. Childers Electric, 1605 4th Ave., Phone OL5-2181.

Modern Marathon Slated Nov. 24

ABILENE—The longest relay race in modern times—an 80-mile effort—will be unrolled Nov. 24 by the students of Abilene Christian College.

Close to 500 ACC students and several faculty members have committed to run in the "victory" torch relay from the campus in Abilene to the football stadium in Brownwood, site of the Turkey Day skirmish between ACC and Howard Payne football forces.

Each student will run approximately 300 yards, and the entire expedition is expected to require about 6½ hours. Approval of the relay has been given by the college administration and the

State Highway Patrol in Abilene.

The anchor lap will be run by Bobby Morrow, ACC's National AAU 100-yard dash champion and a top prospect for the 1956 U. S. Olympic team. Morrow will carry the torch into the Brownwood stadium just before the opening kickoff.

Student Council of ACC is sponsor of the project. Student president Don Bowen said the project will reflect the unflinching spirit of the 50th student body at ACC.

The special long-burning aluminum torch will be ignited in a special ceremony Nov. 21, and will be kept burning all week by all-night student vigils.

Myers Surprised With Housewarming

Mr. and Mrs. T. J. Myers were surprised Saturday evening with a housewarming by friends from the Fairview and Happy communities.

The Myers moved recently from Fairview to one mile west of Canyon on the Hereford highway where they built a brick home.

Ticklers

How To Hold FALSE TEETH More Firmly in Place

Do your false teeth annoy and embarrass by slipping, dropping or wobbling when you eat, laugh or talk? Just sprinkle a little FASTEETH on your plates. This alkaline (non-acid) powder holds false teeth more firmly and more comfortably. No gummy, gooey, pasty taste or feeling. Does not sour. Checks "plate odor" (denture breath). Get FASTEETH today at any drug counter.

State Capitol NEWS

AUSTIN—Sentiment to persuade U. S. Sen. Price Daniel to run for governor next summer is growing.

Sen. Daniel has been in Austin and other cities over the state the past month holding subcommittee hearings on narcotics traffic. On the side he has talked with many local political leaders.

Reports were that some spokesmen for both liberal and conservative factions hoped that by supporting Daniel they could avoid a repetition of the 1954 gubernatorial slugfest.

Daniel has said he will not announce his intentions until after Jan. 1.

More Super Roads

A four-lane highway connecting all population centers should be Texas' aim, says Gov. Allan Shivers.

Addressing a meeting of the Texas County Judges and Commissioners Association in Austin Shivers praised the farm-to-market highways. But, he said, "our trunk-line system has not fared too well."

At least 3,000 more miles of heavy-traffic roads are needed, Shivers stated. He added that "such construction would pay for itself with increased gasoline tax revenues. But people seem more willing to pay more expensive toll road fees than state taxes."

North-South Thoroughfare

A super-highway from the Red River to the Rio Grande by 1960 is the target of the Texas Highway Department.

Originally completion of the 512-mile project was scheduled for 1975. However, faster acquisition of right-of-way than was expected has made the advanced date possible, reports State Highway Engineer DeWitt C. Greer.

Following the route of the present U. S. Highway 81, the new giant road will cost an estimated \$275,000,000.

Where to Put Pupils

Despite mammoth construction outlays, Texas' public schools still are fighting a losing battle with enrollment figures, says the Texas Education Agency.

If buildings and pupils continue to be added at the present pace, the state will be short 24,000 classrooms by 1960, TEA estimates. This despite the fact that during the past six years Texas spent \$432,000,000 on school buildings — or far more than any other southern state.

Population shifts, both within and to the state, as well as the rising birth rate, cause the dilemma, says TEA.

Building Advisors Named

Five men have been appointed to help plan a new State Courts Building.

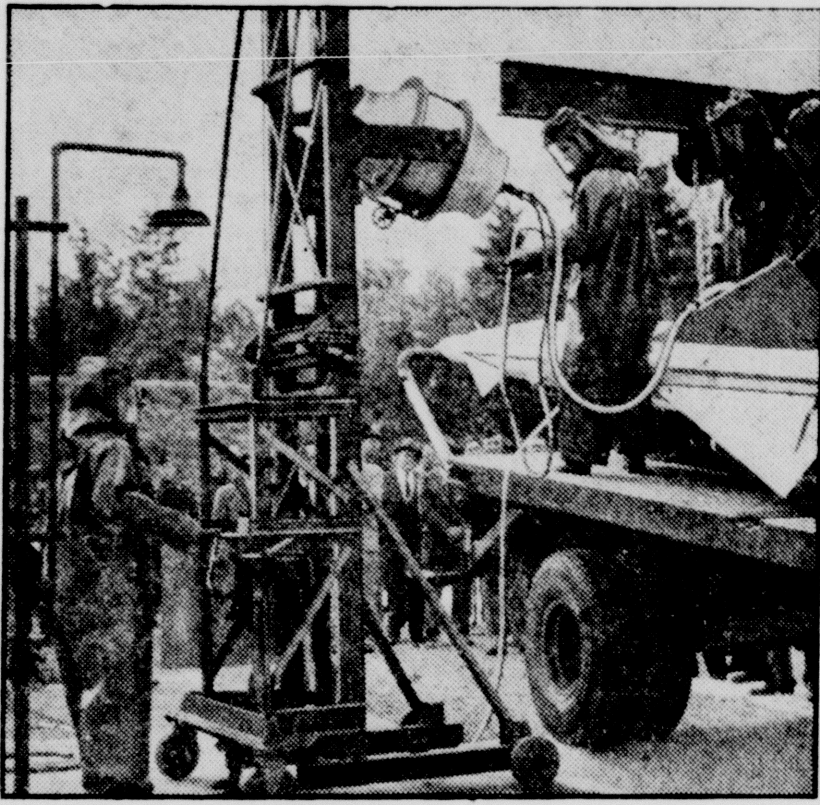

Named to the Supreme Court Building Advisory Board by Gov. Shivers, are former Supreme Court Judge A. J. Folley of Amarillo; former congressman Ed Gossett of Dallas; former Governor Dan Moody; J. Neils Thompson of Austin; and Virgil T. Seaberry Sr. of Eastland.

Duval Decision Stands

Hope is apparently ended for any change in the decision of the Court of Criminal Appeals nullifying 104 Duval County indictments.

CARBED FOR TOMORROW—Out-of-this-world clothing worn by these Army technicians is donned against a day which they hope will never come. They're giving a mock fueling demonstration before a civilian audience at Lincoln, Mass., where ground-to-air Nike missile centers are being set up. Deadly rockets, the Nikes are designed to intercept enemy bombers should an attack ever be made on key United States cities.

The court refused to reverse its ruling that the grand jury which returned the indictments was improperly constituted.

Meanwhile a new Duval grand jury completed its term after returning 198 indictments, 88 of them citing persons involved in the original group. Ten were against South Texas Political Boss George Parr.

Parr Case Before Court

The Texas State Supreme Court will review a case to decide if and when George Parr is to be tried on a civil recovery suit. State action seeks to regain \$500,000 in county funds Parr allegedly used to buy a ranch.

A conflicting suit by pro-Parr forces contends the money was a loan and seeks trial in Laredo. Trial in Cotulla or Alice is sought by the state.

Acreeage Cut Protested

Disgruntled West Texas farmers took a verbal swipe at the State Agricultural Stabilization and Conservation Committee.

In making 1956 cotton acreage allotments the committee allowed a slight gain for Central and East Texas counties, but left West Texas seven per cent short.

At the Texas Farm Bureau convention the losers pushed through a resolution calling for reduction in the committee's distribution powers.

Farmers were united in other resolutions refusing to endorse flexible price supports, asking for high price supports on basic commodities and urging efforts to find outlets for surpluses.

Hearing on Hood Promised

A small ray of hope has developed for the "save Fort Hood" forces in Texas.

Citizens in a 12-county Central Texas area have been stirred up ever since the Army announced plans to move half of Hood's personnel to Louisiana.

Governor Shivers, Senator Daniel, Sen. Lyndon Johnson, and several congressmen have spearheaded their efforts. They called attention to the enormous public and private expenditures made in the area to serve Hood personnel.

Senator Daniel received a telegram from the Secretary of the Army promising Texans a hearing on the subject.

Army dissatisfaction was thought to stem from the refusal of local property owners to permit use of their land for maneuvers without payment.

PROBABLY SO!

Doctor—You have a rather bad throat. Have you ever tried gargling with salt water?
Seaman—Well, I've been torpedoes four times.

Deer Prospects In Good Shape

AUSTIN—Texas hunters generally found abundant targets of well conditioned deer when the big game season for the state at large this morning, reported Howard D. Dodgen, executive secretary of the Game and Fish Commission.

Deer season in the 28-county Panhandle area does not begin until Saturday, and closes Nov. 28 with a limit of one buck.

Under the general law affecting primarily the main whitetail range in the Edwards Plateau, nimrods are entitled to two buck deer.

But there are so many local laws affecting blocks of counties and individual counties, as to dates, limits and other conditions such as restricted weapons, that the executive secretary cautioned hunters to check with their local game wardens if a copy of the Game Law Digest is not available.

It was estimated that in excess of a quarter million of Texans will share in the shoot which, under the general law, runs from Nov. 16 through Dec. 31.

The total combined bag is expected to approach 50,000 deer mainly bucks, although antlerless deer will be taken under special authority as a means of harvesting the yearly increase in certain areas where ranges are stocked to capacity with deer.

The opening day barrage will climax a lengthy preliminary period which, with some veteran hunters, begins when the previous season ends. Principal business, of course, concerns contacting landowners for seasonal leases.

Many gunners who renew their hunting rights year after year maintain close touch with the property holders and oftentimes, during such as drought emergencies, help buy feed for the animals.

Incidentally, natural food has been generally adequate for the first time in several years, according to E. A. Walker, director of Wildlife Restoration. He said the acorn crop, a basic and favorite part of the deer's diet, is good this fall.

Paralleling the general deer season is the wild turkey shoot. Dates are the same and shooting hours likewise are from one half hour before sun-up to one half hour after sundown.

The turkey limit under the general state law is three gobblers but because of unfavorable hatching reports in recent years, many landowners have reduced the bag limit or have eliminated turkey hunting altogether.

The executive secretary emphasized that all persons hunting deer must have official tags to attach to each carcass under a state law designed to compel compliance with the two buck general law limit.

with fire in the brush.

He will further prove that he is a good conservationist by properly dressing out his deer and protecting the meat from spoilage.

Tips Given for Hunting Conduct

AUSTIN—The well behaved Texas big game hunter will have a few extra hazards to trip him this fall if he doesn't watch out, according to Howard D. Dodgen, executive secretary of the Game and Fish Commission.

This peril mainly concerns an ever widening pattern of regulations which has been found necessary to adjust hunting conditions to the far-flung areas within the state. For example, some groups of counties or single counties outlaw .22 rifles for deer and many counties ban .22 rim fire cartridges.

Then, legal hours vary widely although the daily shooting period under the general state law runs from one-half hour before sunup to one-half hour after sundown.

Dodgen stressed that the model hunter will be familiar with provisions of the Game Law Digest.

And if he is shooting in areas where the Commission has regulatory responsibility to adjust harvest dimensions belatedly, he will contact his Game Warden or Wildlife Biologist on the scene. He pointed out that some last minute changes are made in some instances.

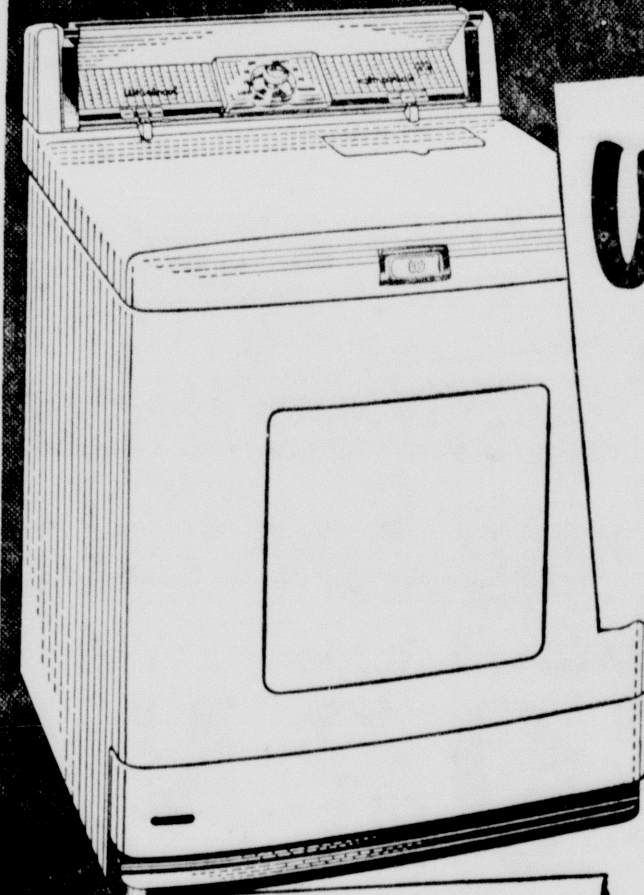

The official said basic guides for the responsible nimrod follow along these lines:

He will hunt only where he has a right to by regular lease or by specific permission of the land owner.

He will determine that his target is a deer and one with pronged horns where the general buck law applies.

He will be extremely careful

Physics Students Stick in Class

SAN ANTONIO—No more skipping classes for physics students at Trinity University.

The old time practice of checking attendance by roll call has

given way on Trinity Hill to a new device — a photo-electric counter.

The gadget mechanically counts heads as students enter and leave science classes. It saves valuable classroom time heretofore spent by professors in checking attendance.

The "evil eye," as Trinity stu-

dents call it, also puts the finger on those who walk out on a class.

The percentage of students who disappear during lectures has dropped significantly. The designer of the Trinity machine is a physics major. For obvious reason he prefers to remain anonymous.

How to be sure you are making the best buy in a new truck

➤ A new truck is an important investment. If you want to be sure you're getting the best buy, you've got to consider a lot of things: price, power, operating economy, good appearance—to mention only a few.

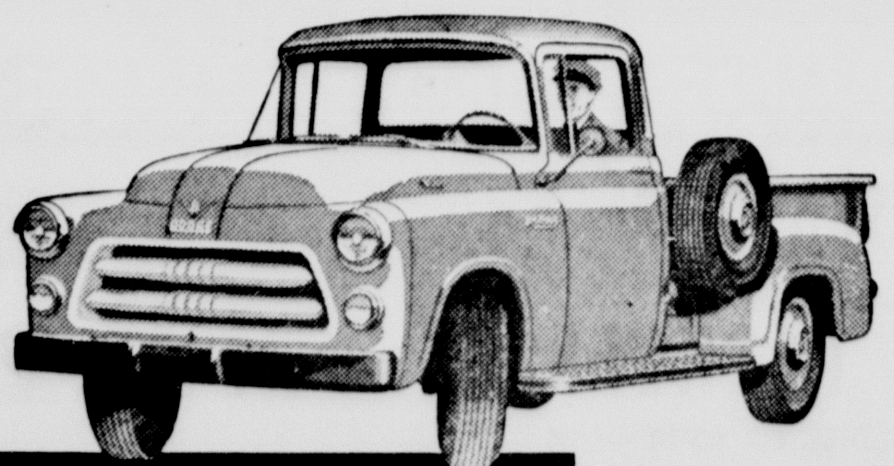

➤ Take price, for instance. Wouldn't it help you to know that you can buy a Dodge for surprisingly little money? Could be you didn't know Dodge trucks cost less than most other makes.

➤ Wouldn't it help you, too, to get the whole picture on truck power? The fact that Dodge Power-Dome V-8's outpower every other leading truck in the low- and medium-tonnage fields surely is important to your decision.

➤ And there are other Dodge advantages you'll want to think about—like the business-building beauty

of Forward Look styling, and the long life that spreads low initial cost over years of dependable service.

➤ It all adds up to this: To be sure of your best truck buy, take a few minutes to talk to your Dodge dealer. Just a phone call will put the wheels in motion.

The Eagle's Tale

30th Year

Published by The Canyon News for Canyon High School Wednesday, November 16, 1955

Early Bird?

Today while working on last minute stories for The Eagle's Tale, my thoughts were interrupted by the sound of our Junior High Band practicing Christmas carols. I've heard them many times this year and their fast improvement is really amazing.

I had not realized until now that Christmas is nearly here. Only 39 more days and just 33 of these are shopping days.

Although I have not been to Amarillo in several weeks, I heard that holiday decorations are already up and many people have their gift buying started. Canyon merchants are decorating stores early this year, too. They recently collected \$2100 and sent off the decorations order. I have made an early New Year's resolution not to do my Christmas shopping last minute style this year and am hoping not to break it.

To help you get the Christmas spirit early, may I be the first to wish you a very Merry Christmas.

Reminiscences Of a Horse

As I ride the bus home I often think of the things I enjoyed when I was a boy. One that seems constantly coming back is the many hours that I spent with horses. I would like to recall some of the remembrances of these days.

My brother bought a horse at the Clovis sale ring. He was not much, but he was a horse. After breaking him, he came down with distemper. He lay at the doorstep of death for days. I hauled water about a half mile for him. When I came in from school one day he was standing up eating the tender blades of green spring grass which grew in abundance around the place where he had been lying. It was not long before I was riding him.

He was a tall, rangy looking horse with a deep red coat of hair. His mane and tail were as black as the night and floated through the air like a ruffle of water on a quiet forest lake when he ran. He was as pontifical as a prince when he walked. I was very fond of him. We spent many hours together. Dad sold him one day and this broke up a partnership of a boy and a horse and also left a scar in my heart.

by Eulean Whitten

Bonfire Increases Student Spirit

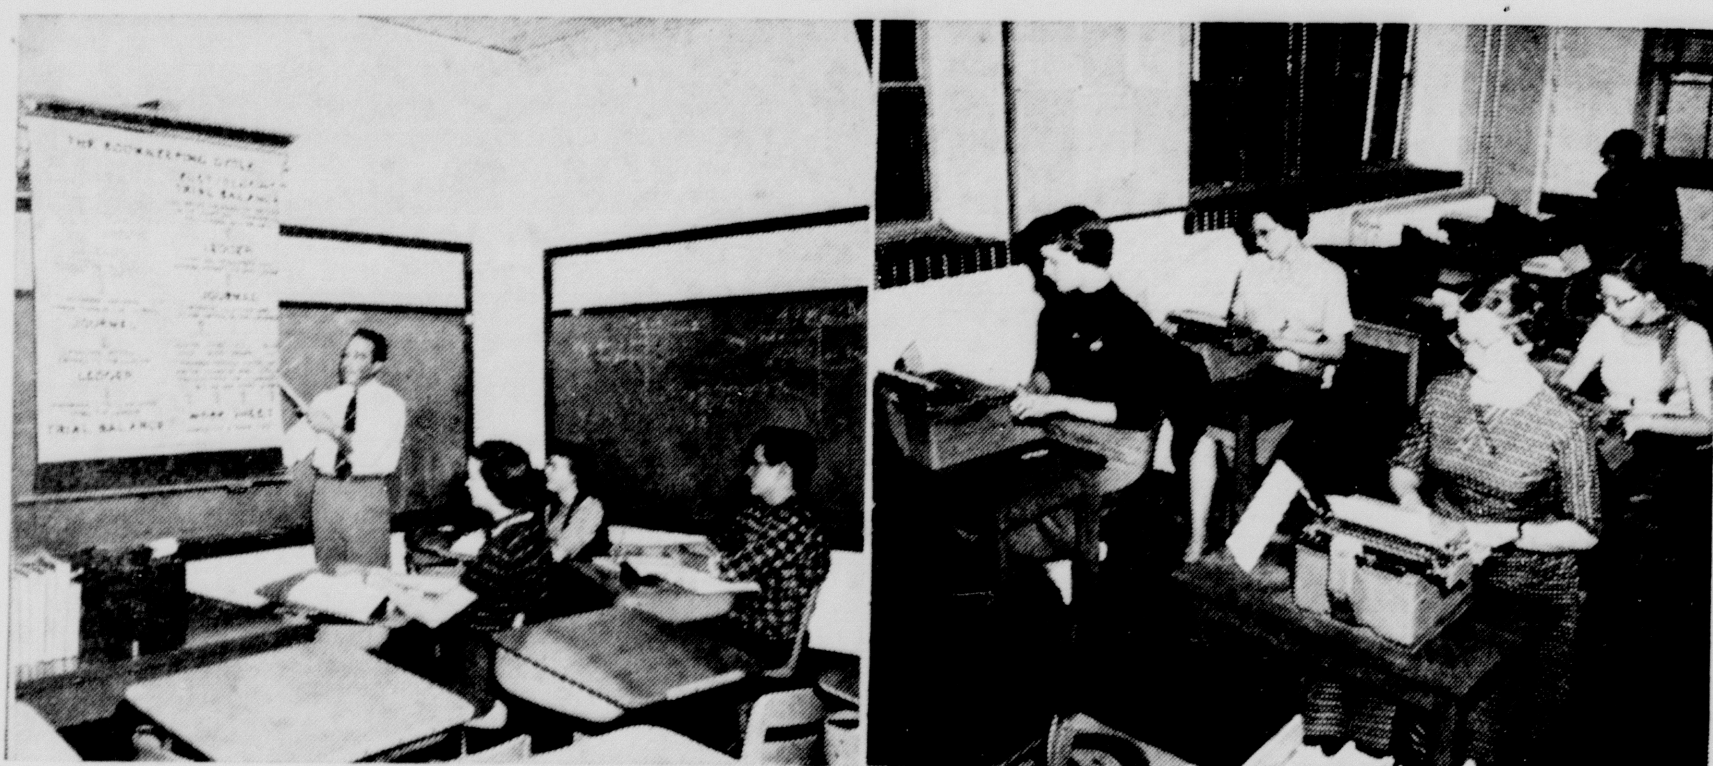

Enflamed by a roaring bonfire into an upsurge of school spirit, approximately 250 students wound around the crackling heap, a symbol of an uplifting of spirit. Throbbing music provided by the band drove away the cold and encouraged the students to yell with more spirit. A determination to win on the field of play was left after the singing of the fight song. The quieter school song toned down the wilder spirit, and a spirit of solemn determination lingered.

Business Department at Work

To the left: Studying the fundamentals of bookkeeping are these students, who may be our future businessmen and businesswomen. Seated are Wanda Rogers, Theora Cosby, and George Alexander. Standing is Mr. O. H. Schuette, business department instructor. To the right: The above students are transcribing from shorthand notes, learning stenography for personal or professional use. In the foreground are Diane Prichard and Nancy Kay Tomlinson. Seated behind them are Joyce White and Carol Holman. Jon Cross is in the background.

Tests Indicate Student Aptitudes

To guide and aid instruction, the Canyon Public School system has adopted a school testing program to reveal students' mental abilities and vocational preferences.

In the eleventh grade, pupils take the Henmon-Nelson Test of Mental Ability. Similar tests are given to students in the first, fourth, and seventh grades.

To help pupils in selecting jobs and college majors, Kuder Vocational Tests are given to high school freshmen during the second semester and to seniors in the first semester. These tests give teenagers a chance to check their vocational interests in ten different areas.

Senior Personalities

Name: Melvin Cunningham
Ambition: To pass Mrs. Simms' English IV.
Hobby: Playing basketball.
Favorite food: Fried chicken and fried potatoes.
Favorite song: "Love is a Many Splendored Thing" by Billy Vaughn
Ideal Person: Coach Hulsey
Pet Peeve: Freshmen
Age: 17
Color Eyes: Green
Color Hair: Brown
Height: 6'1"
Weight: 152

Name: Johnnie Weeks
Ambition: Graduate
Hobby: Going to school
Favorite food: Fried chicken
Favorite song: "Autumn Leaves"
Ideal person: Mrs. Ed Weeks
Pet peeve: Hateful people
Age: 17
Color Eyes: Brown
Color Hair: Brown
Height: 5'5"
Weight: 128

Name: Tom Wilbanks
Ambition: To find an ambition
Hobby: Sports
Favorite food: Pie a la mode
Favorite song: "Suddenly There's a Valley"
Ideal persons: Rev. and Mrs. T. Winston Wilbanks
Pet peeve: Lack of school spirit sometimes
Age: 17
Color Eyes: Brown
Color Hair: Brown
Height: 6'1"
Weight: 145

City Boy Attends Cal Tech College

Barry G. Clark, son of Mr. and Mrs. A. Clark of 2501 7th Ave., has been chosen from among hundreds of applicants in the United States for admission to the freshman class at the California Institute of Technology, Pasadena, Cal. Barry is a graduate of Canyon High School. The freshman class at Cal Tech is limited to 180 men.

Before the beginning of instruction Barry participated in the traditional three day New Student Camp in the San Bernardino Mountains. While participating on the camp trip he became acquainted with the newcomers to Cal Tech, athletics and customs in an informal gathering with student body leaders, Cal Tech President L. A. Dubridge and other members of the staff.

Astronomy, biological sciences, chemistry and applied chemistry, civil engineering, electrical engineering, geological sciences, mathematics, mechanical engineering and physics are provided for undergraduates training at Cal Tech. The students are required to devote one-fourth of their time to the study of the humanities.

Need Stimulates Student Interest Business Department Increases

The importance for training in professional business ability is being noticed by high school age people more and more each day. This year more students than in any preceding year are enrolled in the Canyon High School business department under the direction of Mr. O. H. Schuette. An all-time high of 70 students is taking typing, and the stenography and bookkeeping classes are the largest in the history of CHS. Only juniors and seniors are eligible to take typing and bookkeeping. Students are required to have one credit in typing before taking stenography.

Many young people today are planning to marry soon after high school graduation, and realize the need for remunerative work to finance their desired education. Business ability is one of the best ways to earn a living while attending college.

The business department of Canyon High School is preparing pupils for jobs during the summer months and after high school graduation. At the same time it is aiding those who plan to attend college. Business students receive guidance in business grooming, dress, and behavior. The atmosphere and discipline of the classes are office-like. This training makes the change from school life to office work much easier to adjust to, and gives the new job holder a feeling of security. To add to the reality, bookkeeping students work practice sets and income tax problems provided by the government; also they pretend to invest in stock and keep a record of their earnings and losses.

Shorthand classes learn to use a dictaphone which is fast becoming standard office equipment and to take actual letters from faculty members. Many office jobs require applicants to be able to take dictation and use their shorthand accurately.

Mr. Schuette stressed the need for more boys in the stenography class because the knowledge gained there is invaluable to them in college and permits much better jobs in the armed services; in addition to this, many large business firms are searching for male secretaries who are, according to latest statistics, receiving better wages than women secretaries.

Alcoholic Effects Revealed in Talk

"Alcohol is number three on the list of habit-forming drugs," stated W. A. Martin, director of education for Texas narcotics and alcoholics division, in his talk at the Canyon High assembly Nov. 1 in the auditorium.

Martin spoke on how a balanced personality could be affected by alcohol. The first part of the brain that is reached is the portion that controls our personality, especially judgment, consciousness, self-control, imitation, and reason. "To cure the habit of alcoholism, one must have emotional stability," said Martin. "This includes satisfying give-and-take relationships, using leisure time to advantage, helping to improve home, school, and church, profiting from mistakes and successes, being free from anxiety, fear, and tension, and having faith in one's own ability to solve problems without escape."

Another important factor in the cure of alcoholism is education on the subject. Martin defined education as "that which makes people easy to lead but impossible to drive."

The ill-effects of alcohol are great. One example given was that 48% of all automobile accidents in Texas are caused by the consumption of alcohol. Two-thirds ounce of alcohol reduces the brain's power by 38%.

Grads Make Good

Many 1955 graduates are making good in the business world with the training they received in the business department and other departments of CHS.

Some of these well-remembered people are: Bettie Wimberly, who is working part time in the city hall; Peggy Sheets and Ellen Johnson, who worked during the summer for Southwestern Investment Co. in Amarillo; Rhae June Burgess who was employed as a bookkeeper for Meads Bakery; Gladys Leseberg who is currently secretary for Mr. L. H. Brotherton, Junior High principal; Ann Moore who is working for Stevenson and Blackwell Insurance Agency; and Dovie Keene who is a reporter for The Canyon News.

Several graduates are working part time at the college. Agnes Measamer is working at the museum. Alice Brotherton and Loree Wiley are helping in administrative offices.

Plans are being made for two students from WT to speak to business classes concerning job opportunities in the business field.

Wright, Green Smile Winners

Always smiling Smile Queen and King for 1955-56 Janis Wright and Hubert Green were presented with a tube of Ipana toothpaste at the Smile Week assembly Nov. 4 in the high school auditorium.

Janis Wright, senior, is a choir and ensemble member. She was sophomore class favorite and treasurer of the junior class. She was elected a member of the Junior Who's Who in 1954, and is a member of the National Honor Society. Janis is a Future Homemakers of America member and won the award for the most outstanding FHA member in 1955. She has received her Junior, Chapter, and State degrees in the organization. She is an FTA member.

Hubert Green, also a senior, is active in sports, being captain of the Eagles football team this year. In his junior year he was All-District guard. Hubert was president of the freshman class and Hall of Fame member in his freshman and sophomore years. He is a member of the National Honor Society. Last year he served as vice-president of the Student Council and this year he is president.

The election of Janis and Hubert climaxed a busy week of smiles. During the first three days of the week, beginning October 31, announcements urging people to smile and be friendly were made on the inter-communication system by Janie Brotherton, Charles Neblett, and Ralph Miller. Ralph read this original poem about smiles:

It's smile week man, so dig the jive!
Just flash a tooth and act alive!
If you don't smile, then - after while -
Your face will be long as the Nile.

Officers Elected For Library Club

A meeting of the Loula Grace Erdman Library Club members was held recently in the library at CHS.

Officers elected were: president, Patricia Hardaway; vice-president, Gayle Welch; and secretary, Gwendolyn Kelso. The members decided to have their meeting on every first Thursday of each month.

The second meeting of the club was held on Oct. 31, 7:30 p. m. at the home of Mrs. Nora Gilmore, librarian. Members attending were Gayle Welch, Ina Jo Hughes, and Gwendolyn Kelso. Games were played in which a pair of earrings and stick perfume were won by Ina Jo Hughes.

Gwendolyn Kelso gave a book review on My Several Worlds by Pearl Buck.

Refreshments of cheese sandwiches, punch, cookies, and candy were then served.

Members in the Loula Grace Erdman Library Club are: Patricia Hardaway, Gayle Welch, Gwendolyn Kelso, Mary Iribeck, Marella Moore, Ina Jo Hughes, and Joyce Barker.

Science Members Face Bull Snakes

Care to handle a live bull snake? Yes, it is hard to believe but the members of the Science Club will assure you that you can handle and study bull snakes with high fascination.

Dr. Don Enlow, instructor of the biology department at West Texas State College, talked to the Science Club on the subject of falcons and snakes. Dr. Enlow, a noted Herpetologist, brought two live bull snakes which he allowed to be handled and studied by the students. After handling the snakes the students looked upon the snakes not as harmful reptiles but as a prince among reptiles.

The falcon, a member of the hawk family, is a fierce hunter, especially the Old World Peregrine falcon.

Refreshments of hot chocolate and cookies were served. The Science Club had its first meeting Oct. 6, in the home of Mrs. Joseph Findley, instructor of science and algebra at Canyon High School.

Dr. Leta Boswell, Canyon physician, gave the program on blood typing. She explained the various problems in blood transfusions and blood clotting.

Members are: Deanna Cooper, Earroll Wright, Bob Pearce, Bob McKay, Charles Brasher, Carol Holman, Joyce Wright, Mac Boswell, Janet Wheeler, Alan Hanks, Barbara Brown, Rhett Plank, Ralph Miller, Perry Shagle, Edgar Montgomery, Charles Conatser, Venita Lewis.

Brian Tolliver, John Wheelock, Gwen Kelso, Joyce Barker, Mary Whealy, Wilford Taylor, Frances Boyd, Virginia Leake, Leo Rigby, Charles Neblett, Joe Bailey, Mike Wheeler, Theresa Mickey, Virginia Walker, Gayle Welch, Bob Phillips, Jon Cross, Bobby Samuelson, Bernye Bob Woodward, Tom Wilbanks, Beverley Colwell, Liston Coleman, Dana Wilbanks, Peggy Graham, Jane Ledbetter, Johnny Knitted.

Runners-up in the contest were Janie Brotherton and Richard Burgess.

Girl and Boy Assemblies Encourage High Ideals and Self Adjustment

To encourage an understanding of the advantages of good citizenship in high school and to think in terms of personal development were the purposes in the annual separate assemblies for boys and girls of Canyon High School, November 9.

Having a good personality is important to every teenager. But to be a person with a good personality, one must first be happy and well satisfied with himself. A well adjusted teenager cannot be happy on the outside unless he is happy inside. Happiness can be developed on every one if he will have the right attitude toward the successes and failures of every life.

Class Points Gained By Washer Winners

Winners in washers are:

Girls:
First place winners: Sue Reynolds, Annie Jean Howard
Second place winners: Sara Slagle, Suzanne Lemons
Third place winners: Charlotte Crain, Diane Prichard
Fourth place winners: Gwen Carter, Marilyn Keller.
Boys:
First place winners: Jack Pruett, Harlie Adams
Second place winners: Raymond Wesley, Glenn McDowell
Third place winners: Bob Zachery, Weldon Tucek
Fourth place winners: Joe Carter, Edward Hinders.

Riley Gains Post In FTA District

La Verne Riley, member of the D. A. Shirley chapter of the Future Teachers of America, was elected financial secretary of District IX at the district meeting Nov. 8, held at West Texas State College.

Other nominees for district office from Canyon were: Theresa Mickey, president; Debra McDonald, vice-president; and Emma Coleman, corresponding secretary.

A skit from Canyon was presented, and Emma Coleman and Bonnell Riley spoke in competition for Mr. and Miss FTA of the district. The winners were Brenda Solnick of Amarillo and Ted Swindle of Pampa.

After the usual meetings for the day had ended, the members were given a Coke party by the Canyon Rotary, Lions Club, and Chamber of Commerce.

The senior class has been in a mild uproar the past week as proofs of pictures arrived Nov. 7 and the selection of commencement invitations and personal cards were made Nov. 9.

Marquise Studios of Enid, Okla., photographed the senior group this year.

Orders for the invitations will be made later in the year.

Choral students attending Puccini's opera, La Boheme, at Amarillo recently were Beverly Colwell, Norma Jean Glenn, Peggy Graham, Beverly Henson, Carlo Holman, Suzanne Morris, Carrie Belle Ruggles and Nancy Wiggins. Accompanying the group were Mrs. Virgil Henson, Mr. and Mrs. Herman Demus, and Miss Ada V. Clark, choral instructor.

Two hundred and fifty dollars were solicited by the Canyon Christian Youth Council to send milk overseas.

NEWS LETTER

FROM CONGRESSMAN WALTER ROGERS
OF THE 18TH CONGRESSIONAL DISTRICT

Inside Russia

Last week's newsletter ended when we reached Leningrad. Shortly after we had been passed through customs we were taken to the Astoria Hotel in downtown Leningrad. It is located on St. Michael's Square just across the street from the Church of Peter and Paul.

Incidentally, this Church is under repair, as are a great number of churches in Russia. Most of these that we asked about are to become museums. It was approximately 7 o'clock when we reached the hotel.

There was very little traffic on the streets other than pedestrian traffic. The hotel lobby was not unlike the lobby of an American hotel. There was much activity.

We later found out that there were two conventions in session. This really added an American touch.

We were assigned to our rooms and told that we could obtain food in the restaurant located in the hotel. We all gathered in the lobby later and went into the restaurant together.

No doubt the waitresses had been alerted that there were some Americans in town. They were obviously waiting for us and were exceedingly nice and solicitous of our welfare.

The meal was typically American and consisted of steak, french fried potatoes, green peas and diced carrots. It was very good and we were all glad to see it.

For the dessert there were a number of different kinds of Russian pastry and one of the waitresses undoubtedly felt that we would never live until morning unless we ate at least two of these pieces. She could not understand us, and we could not understand her, but the result was she kept putting the pastry on our plates until we finally ate it in self-defense, all of which pleased her very much.

The first two Russian words that we learned were "spaceba" which means "thank you" and "pashalsta" which means "you are welcome." "I am pleased" and several other things of similar import.

One of our first experiences with these words occurred when one of our group got out of the car in which he had been riding. Wanting to thank the Russian driver, he said, "spaceba," to which the Russian driver replied, "Don't mention it," in English.

This caused quite a laugh, but it developed that the Russian driver had studied English and could speak it pretty well.

At the same time we were in Leningrad, the Secretary of State for External Affairs, Lester Pearson, arrived with a contingent from Canada on a mission which we understood was to promote friendly relations between Russia and Canada.

His visit preceded by only a few days a good will visit to Leningrad by several British warships. However, our tight schedule prevented us from concerning ourselves with matters other than our own.

The morning of Oct. 8 was consumed by a conference and the afternoon by looking over the water transportation facilities and the local surface transportation.

We were scheduled to depart Leningrad by train at 8:10 p. m. for Moscow, but did not get away until several hours later. I will discuss this departure in next week's letter.

The Best Experience Coming Home

There is one experience that I want to tell about that took place outside Russia. It was when we left the Greater London Airport to come back to the United States of America, the greatest country in the world. Never forget it.

It was a complete reverse feeling from that which I experienced when I got on the Aeroflot plane in Helsinki to go into Russia. The London Airport is a tremendous installation. There seemed to be planes in every direction.

We were on a Boeing double-decker Stratocruiser of Pan American Airways. During the take-off I was assigned a temporary seat in the pilot's compartment immediately behind the captain.

He was Captain P. Willie Smith. His First Officer was G. Hawkins; the Navigator, L. Sundquist; the Third Officer, W. Romanovitch, and Stewardesses J. Glover and E. Feigel.

In addition to the nine crew members, there were 43 passengers aboard. The craft empty weighed 45 tons. Loaded it tipped the scales at just short of 75 tons.

It would be difficult to explain in words the great confidence that I had in the ability of these fine Americans to safely convey all 52 humans to the good earth of the United States.

As we moved out on to the runway nothing was left to chance. All instruments were checked and double checked which was in effect checking every moving part of the plane.

It is a thrilling experience when you hear the tower clear you for take-off and the Captain gives the orders that will soon result in your being thousands of feet in the air. The throttles are handled by the men directly behind the

pilot, and as the speed of the propellers is stepped up and the plane begins to hurtle down the runway, you never lose confidence that you are completely safe.

I am frank to say that I did not have that confidence while flying some of the foreign planes, although we always arrived at our destination without mishap.

We were soon high in the air and the sprawling City of London was spread out before us. One hour and 56 minutes later we began to go back to earth. It was cloudy and nothing was discernible.

I was back in the jump seat behind the Captain. You could feel this giant aircraft coming closer and closer to earth and you could see nothing.

All of a sudden we broke out of the clouds and directly in front of us were the lights of the runway at the Shannon, Ireland, Airport.

Captain P. Willie Smith and his able crew hadn't missed an inch. Within seconds our wheels were rolling on the old sod. Soon thereafter we left Ireland behind, sailed out over the Atlantic and 12 hours later landed at Idlewild Airport, New York.

There is no feeling like the feeling when your foot touches the good old U. S. again.

8 Traffic Deaths Listed in Area

Eight persons were killed and 87 injured in 150 traffic accidents on Panhandle highways during October, according to a report by the Texas Highway Patrol.

The death rate was down from September and from Oct., 1954, when 15 persons were killed. The estimated property damage last month totaled \$99,299.

The patrol report listed speeding as the principal cause of October accidents. Other principal violations listed in order were driving while drinking, failure to grant right of way, miscellaneous hazardous violations and improper passing.

The death toll for 1955 in the Panhandle stands at 81 killed and there have been 685 persons injured. For the same period last year, the death toll was 76 killed and there were 555 persons injured.

The 21 patrolmen of the Amarillo district worked 3,333 daylight hours and 2,033 night, and traveled 82,253 miles.

They investigated the 150 accidents and made 681 traffic arrests—321 for speeding and 36 for driving while intoxicated. They made 1,580 warnings for hazardous violations.

So far this year, accidents in the Panhandle have cost an estimated \$703,058 in property damage as compared to \$694,902 for the same period last year.

Boys Ranchers Have FFA Chapter Now

Cowhands at Boys Ranch have their own FFA Chapter this year for the first time at the Ranch.

Knowing how to take care of their stock properly is a very important part of the Ranch operation. The boys are very proud of their new FFA Chapter, a part of their vocational training in their new school.

Under supervision of Bill Jackson, vocational agricultural teacher, the boys have undertaken as their first project the building of hog pens and the Lazbuddie FFA Chapter has given the Boys Ranchers a pig to begin with.

They are hoping within a short time to have several brood sows and about 150 feeder pigs.

It takes three hogs a week to feed all 220 boys at the Ranch and the FFA boys are hoping to be able to provide the majority of them as well as beef and other projects they will undertake.

Members of the Area I FFA Chapters have for the past few years helped the Boys Ranchers with a "Beef-a-Month" plan, with each club in the organization donating about one beef during the year.

This supplies a part of the two beefs a week it takes to feed the boys and they are hoping to supplement it by raising some of their own beef in their chapter.

Admiral Yarnell, now 80, cautions on nuclear war.

Thanksgiving Meal Will Be Saturday

The Palo Duro-Rusk Home Demonstration Club will have a Thanksgiving dinner Nov. 19 to honor club members and their families. Serving time is 6 p. m. at the home of Helen Reynolds.

The plans for the dinner were made at a recent meeting. Following the planning session, refreshments were served to Susie Conatser, Ida Dugan, Oma Lee Lowrey, Bessie Faye Marshall.

Opal McClendon, Anna Miller, Francis Northcutt, Helen Reynolds, Joan Reynolds, Gladys Marshall, Lou Reynolds, and the hostess, Rosa Cowart.

Sports Quiz

1. What was the score of the Navy-Notre Dame game?
2. What star miler was recently barred for accepting too much expense money?
3. Who won the Duke-Georgia Tech game?
4. What 85-year-old baseball great recently passed away in Washington?
5. When are the next Olympic Games?

THE ANSWERS:

1. Notre Dame 21; Navy 7.
2. Wes Santee.
3. Georgia Tech, 27 to 0.
4. Clark Griffith.
5. Next summer (1956).

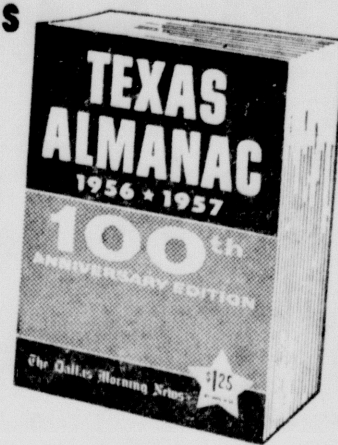

Benson says farmers are adjusting to peace.

All facts about Texas in the new TEXAS ALMANAC

The Centennial Edition of the Texas Almanac brings all data on Texas up-to-date. It includes a review of progress in Texas for 100 years.

Businessmen, farmers, ranchers, students and homemakers will find it an invaluable source book for facts, figures and good reading.

This will be the finest and biggest Texas Almanac issued in its hundred years of publication. It contains 768 pages. There is no advance in price.

Come in and try the Greatest Go on wheels!

Thrill to the smartness of pattern-for-tomorrow style!

It's coming some day on other cars—this exciting blend of rakish lines and gracious luxury. But Pontiac has it now in 15 smartly fashioned models—including 6 Catalina hardtops styled with a clean distinction never seen before.

Yours to command

in the fabulous

'56 Pontiac

It's the talk of the test drivers—this long, low, crisply sculptured beauty! Performance is their first love—and this fabulous '56 Pontiac has it—the greatest "go" on wheels. Split-second getaway, blazing drive, razor-sharp steering and big-brake stopping—this one has them all.

It surprises you at first. It's so well behaved, so gentle. You pull away from the curb, drive, stop, turn and park with a sure and easy touch.

But it's loaded! Loaded with vibrant action you've never sampled before! There's 227 blazing horsepower packed into this great Strato-Streak V-8. And it pours through to the rear wheels silky smooth. When it's time to make your move you just point your toe and go! Passing is a breeze as that great rush of power whisks you ahead to safety in the flick of an eyelash. And the highest hills simply seem to melt away in front of you.

Ten minutes behind the wheel of this great new Pontiac and you'll know the secret behind all the excited whispering among test drivers in the last month or so. You'll know something else, too . . . this is it, the one for you.

Stop by our showroom to see and drive this fabulous '56 Pontiac today or tomorrow for sure. And be prepared for a thrill. This car will deliver it . . . fast!

RECIPE OF THE WEEK

By Mary Lee Taylor
Apple Cake Pie

4 cups thinly sliced, pared apples
1 1/2 cups sugar
1/2 teaspoon cinnamon
1 cup sifted, all-purpose flour
1/4 teaspoon baking powder
1/4 teaspoon salt
1 well-beaten egg
1/2 cup fat
Evaporated Milk
3 Tablespoons water
1/2 cup melted butter or margarine

Put apples into bottom of a greased round 9-in. cake pan. Sprinkle over the apples a mixture of 1/2 cup sugar and the cinnamon. Let stand. Sift together into a 2-qt. bowl the flour, 1 cup sugar, the baking powder and salt. Mix in another bowl the rest of the ingredients. Add all at once to flour mixture and mix until smooth. Pour over apples in pan. Bake in 325 oven (low moderate) on rack slightly below center 1 hour, or until top is brown. Cut into pie shaped wedges. Serve warm or cold.

For Tender, More Flavorful Turkey

By Mary Lee Taylor

Home Service Division, Carnation Company

"Dressed" turkeys are picked but not drawn. Allow about 1 1/4 pounds per person when you buy market-dressed or New York dressed turkeys.

"Ready to roast" turkeys, either fresh or frozen, are cleaned—just stuff and roast. Allow about 1 pound per person when you buy "drawn" turkey.

When roasting turkey

Defrost frozen birds in refrigerator or at room temperature if time is limited. Remove outer wrappings, cover loosely with waxed paper, and place in shallow pan. Allow about 6 hours per pound defrosting time in refrigerator, and about 1 hour per pound to thaw at room temperature. Place stuffed turkey on rack in shallow roasting pan. Roast in slow oven (325°F).

20-25 min. per lb. Small Turkey (6-10 lbs.)

18-20 min. per lb. Medium Turkey (10-15 lbs.)

15-18 min. per lb. Large Turkey (16-25 lbs.)

Base turkey about every half hour, after first hour of roasting, for crisp, brown bird.
